PURSUANT TO IND. CODE CH. 8-1-40.	)	

COMPLIANCE FILING AND SUBMISSION OF TARIFF

Indiana Michigan Power Company ("I&M"), by counsel, pursuant to the Order issued January 26, 2022 in this Cause, hereby submits a copy of the revised tariff sheet filed in 30-Day Filing No. 50625 on January 13, 2023, which was approved by the Commission's Energy Division on February 22, 2023. I&M is including for reference a copy of the approval letter sent on February 22, 2023.

I&M submits the following tariff sheet:

- Rider EDG (Excess Distributed Generation Rider) - First Revised Sheet No. 41.8.

I&M's compliance rate design, based upon the updated average Real-Time Locational Marginal Price (LMP) for the I&M load zone in 2022, is provided in Compliance Attachment 1 (Note 188 pages.) I&M's revised tariff sheet is effective for bills rendered beginning with the billing month of March 2023.

Re: Indiana Michigan Power Company
30-Day Filing No. 50625
Received: January 13, 2023

Dear Dona Seger-Lawson:

The Indiana Utility Regulatory Commission (Commission) received your request for approval of:

Requesting approval of an updated Procured Generation Credit Rate for the Rider EDG (Excess Distributed Generation Rider).

This filing was submitted on January 13, 2023, pursuant to the Commission's 30-day filing procedure under 170 Indiana Administrative Code 1-6. The 30-day filing process is available for certain routine and non-controversial requests to facilitate expedited consideration of these matters by the Commission.

Your filing was reviewed and recommended to be approved by the Commission's Energy Division. The Commission approved your filings at conference held on February 22, 2023. Attached is a copy of the approved tariff.

If you have any questions, please contact me at (317) 232-4244 or by e-mail at jsteinhauer@urc.in.gov.

Sincerely,

Jane Steinhauer
Director

January 13, 2023

Dear Secretary:

Pursuant to 170 IAC 1-6 and as approved in Cause No. 45506, I&M submits this thirty-day filing requesting approval of an updated Procured Generation Credit Rate for the Rider EDG (Excess Distributed Generation Rider). I&M's Rider EDG provides customers the opportunity to voluntarily interconnect an eligible distributed generation facility to the Company's system. This applies to customers who own and operate an eligible distributed generation renewable energy resource such a solar photovoltaic, wind, biomass, or hydro electrical generating facility designed to operate in parallel with the Company's system.

By way of background, on January 26, 2022 in Cause No. 45506, the Commission approved I&M's Rider EDG. As approved by the Commission, I&M is to update the Procured Generation Credit Rate on an annual basis. In particular, Rider EDG is to be updated by March 1, via a 30-day filing. As provided in Attachment A, the Procured Generation Credit Rate for the Rider EDG is calculated pursuant to Ind. Code 8-1-40-17, wherein (1) the average marginal price of electricity paid by the electricity supplier during the most recent calendar year; is multiplied by (2) one and twenty-five hundredths (1.25).

In support of this 30-Day filing, I&M is submitting the following information:

1. Indiana Michigan Power Company's Rider EDG, Tariff Sheet First Revised Sheet No. 41.8.
2. Attachment A, 2022 Average Real-Time LMP for I&M Zone and calculation of the Rider EDG Procured Generation Credit Rate, and
3. Verified Statement of Publication.

January 13, 2023

Page 2

Upon completion of your review, please return to I&M one set of the stamped approved tariff sheet.

If you have any questions regarding I&M's filing please contact me at (614) 302-8439 or at my email address dseger-lawson@aep.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Dona R. Seger-Lawson". The signature is fluid and cursive, with the first name "Dona" being the most prominent.

Dona R Seger-Lawson
Director Regulatory Services

**RIDER EDG
(Excess Distributed Generation Rider)
(Cont'd from Sheet No. 41.7)**

Metering.

One of the following metering options, if not already present, shall be installed on the distributed generation customer's premises by the Company to properly record the kWh that is delivered and received:

- (1) One main watt-hour meter capable of measuring both the customer usage and the excess generation during instances when the eligible onsite generation is producing more energy than is being consumed at the customers' premises.
- (2) One main watt-hour meter measuring the flow of energy to the distributed generation customer and a second watt-hour meter measuring the flow of energy to the Company during instances when the eligible onsite generation is producing more energy than is being consumed at the customers' premises.

The Company may install one or more additional meters to monitor the flow of electricity.

Monthly Charges, Credits and Billing.

Monthly charges for energy, and demand where applicable, to serve the customer's total load shall be determined according to the Company's standard service tariff under which the customer would otherwise be served, absent the customer's eligible distributed generation facility. Energy charges under the customer's standard tariff shall be applied to the total amount of energy delivered from the utility to the customer's premises through the Company metering for the billing period. The meter register will record instances when the eligible onsite generation is producing more than what is being consumed at the premises (excess distributed generation) and the customer will be credited for the total of this excess generation on the customer's current bill for the billing period. The customer will be credited for energy procured from the customer at the current approved rate as stated below and pursuant to IC 8-1-40-17. If the credit for energy procured from the customer exceeds the current charges in the billing period, any excess credit shall be carried forward and applied against future charges to the customer as long as the customer receives retail electric service from I&M at this meter location on the customer premises. Any unused credit shall be credited back to all customers through the FAC.

Procured Generation Credit.

Procured Generation Credit Rate = \$0.08482 per kWh.

I&M will update this rate annually by making a 30-day filing with the Commission on or before March 1.

(Cont'd on Sheet No. 41.9)

Notice Text

LEGAL NOTICE
STATE OF INDIANA
INDIANA UTILITY REGULATORY COMMISSION

Indiana Michigan Power Company (I&M), an Indiana corporation, gives notice that on or before January 13, 2023, it will submit for approval under the Indiana Utility Regulatory Commission's thirty-day filing process a request to approve an updated Procured Generation Credit Rate for the Excess Distributed Rider (EDG) to be effective the first billing cycle for March 2023 . The referenced filing will consist of Indiana Michigan Power Company s calculation of the updated EDG credit rate pursuant to Ind. Code 8-1-40-17, wherein (1) the average marginal price of electricity paid by the electricity supplier during the most recent calendar year; is multiplied by (2) one and twenty-five hundredths (1.25). I&M c ustomers potentially affected by this filing include those customers on Rider EDG who own and operate an eligible distributed generation renewable energy resource such a solar photovoltaic, wind, biomass, or hydro electrical generating facility designed to operate in parallel with the Company's system . The Indiana Utility Regulatory Commission is expected to rule on proposed revisions to Rider EDG on or before February 22, 2023.
