VERIFIED SUPPLEMENTAL TESTIMONY

OF

SABINE E. KARNER

On Behalf of Joint Petitioners

Joint Petitioners' Exhibit 5

INTRODUCTION AND BACKGROUND

- 2 Q1. Please state your name and business address.
- 3 A1. My name is Sabine E. Karner. My business address is 2020 North Meridian Street,
- 4 Indianapolis, Indiana.
- 5 Q2. Are you the same Sabine E. Karner who previously submitted direct testimony
- 6 in this proceeding on behalf of Petitioners?
- 7 A2. Yes I am.

1

- 8 Q3. What is the purpose of your supplemental testimony in this proceeding?
- 9 A3. I am offering testimony in support of the Stipulation and Settlement Agreement
- 10 entered into by Joint Petitioners and the Indiana Office of Utility Consumer
- 11 Counselor (the "OUCC") filed in this Cause as Joint Settlement Exhibit 1 (the
- "Settlement Agreement"). I sometimes refer to Joint Petitioners and the OUCC
- together as the "Settling Parties."
- 14 Q4. Please briefly describe the history of this case and the events that led to the
- 15 **Settlement Agreement.**
- 16 A4. On January 12, 2018, Joint Petitioners filed their Verified Petition and case in chief
- testimony requesting that the Commission "confirm and approve new depreciation
- accrual rates to be applied to Petitioners' respective gas, steam, water and
- wastewater utility plant in service." (Verified Petition at 7). On June 22, 2018, the
- 20 OUCC filed its testimony. Joint Petitioners filed their rebuttal testimony on July
- 21 13, 2018.

Consistent with the policy of the Commission and Indiana law generally favoring settlements, Citizens Energy Group, to the extent possible, prefers a collaborative approach to resolving proceedings before the Commission as opposed to unnecessarily litigating issues, which can lead to delays, uncertainty and strained relationships, as well as increase the burden on the Commission, the OUCC and other stakeholders. To that end, as soon as Joint Petitioners filed their rebuttal testimony, we commenced efforts to find common ground with the OUCC and settle this case. The OUCC responded in kind and both parties sacrificed time that otherwise would have been spent preparing for a litigated hearing in order to engage in settlement discussions. It took a dedicated commitment by both parties to reach a mutually acceptable compromise in this case, and Joint Petitioners appreciate the time and effort of the OUCC case team, which made a settlement possible.

A5.

Q5. Please provide an overview of the stipulations the Settling Parties reached in the Settlement Agreement.

There were two fundamental issues raised in this proceeding: (1) the depreciation accrual rates to be used for each account or subaccount applicable to Joint Petitioners' utility plant; and (2) the timing of implementing revised depreciation accrual rates. The Settling Parties' agreement on new depreciation accrual rates is set forth in Paragraph 2 of the Settlement Agreement. The Settling Parties' agreement on timing of implementing revised rates is set forth in Paragraphs 3 and 4 of the Settlement Agreement. The remainder of the Settlement Agreement contains provisions that are customary for settlement agreements presented to the Commission for approval.

1 While I provide an overview of the proposed depreciation rates set forth in 2 the Settlement Agreement, Joint Petitioners' witness John J. Spanos supports the 3 reasonableness of the composite rates by account or subaccount the Settling Parties 4 have agreed to. I also testify regarding the timing issue and explain why Citizens 5 Gas of Westfield, Citizens Water of Westfield and Citizens Wastewater of 6 Westfield (collectively the "Westfield Utilities") agreed not to implement the 7 change in depreciation accrual rates approved in this proceeding prior to each 8 utility's next base rate case. 9 **Q6.** Please provide an overview of the depreciation rates the Settling Parties have 10 agreed to. 11 A6. The proposed depreciation rates vary by asset type for each utility and are presented 12 in Attachment SEK-S1, which is a revision of Attachment SEK-1 to my case-in-13 chief testimony updated based on the depreciation rates the Settling Parties have 14 agreed to. 15 **Q7.** How will the Settlement Agreement impact Joint Petitioners' depreciation 16 expense? 17 A7. The depreciation accrual rates the Settling Parties have agreed to would result in an 18 aggregate reduction of depreciation expense for all the Joint Petitioners, compared 19 to the depreciation accrual rates proposed in Joint Petitioners' case-in-chief. For 20 illustrative purposes, the following table presents a comparison of the resulting 21 overall depreciation rate for each business unit using September 30, 2017 plant 22 balances, based on the composite rates in Joint Petitioners' case-in-chief, the

- 1 composite rates in the OUCC's case-in-chief and the composite rates the Settling
- 2 Parties agreed to.

Proposed Overall Depre	eciation Rates B	Based on Septem	ber 30, 2017 Pl	ant in Service
	Jt. Pet. Case	OUCC Case		Expense
Unit	in Chief 1	in Chief ²	Settlement	Impact ³
Shared Services	8.40%	5.27%	6.15%	(\$2,087,323)
Citizens Gas	1.97%	1.95%	1.97%	(\$9,009)
Citizens Thermal Steam	3.92%	3.87%	3.91%	(\$6,901)
Citizens Water	1.18%	1.16%	1.18%	-
CWA Authority	1.73%	1.61%	1.71%	(\$623,790)
Westfield Gas	2.18%	2.18%	2.18%	-
Westfield Water	1.84%	1.65%	1.84%	-
Westfield Wastewater	2.44%	2.20%	2.42%	(\$15,635)
				(\$2,742,658)

See Direct Testimony of Sabine E. Karner, Joint Petitioners' Exhibit 1, page 15, lines 8 – 9.

Q8. Why are the Westfield Utilities willing to defer implementation of the revised depreciation accrual rates applicable to their utility plant until a base rate case?

A8. As I explained in my case-in-chief and rebuttal testimony, the primary reason Joint
Petitioners are seeking approval of revised depreciation accrual rates is to maintain
the accuracy and integrity of their books and records. The Westfield Utilities were
included in the depreciation study as a matter of practical expediency given
Citizens' multi-utility structure. However, the change in depreciation rates for the
Westfield Utilities resulting from the depreciation study conducted by Mr. Spanos

² See Direct Testimony of David J. Garrett, Public's Exhibit No. 1, page 6.

³ Difference between depreciation expense using composite rates in Joint Petitioners' case-in-chief and composite rates from the Settlement Agreement.

1		is not so material that deferring implementation of the revised rates for those
2		utilities is a financial reporting concern.
3	Q9.	Do you believe the Settlement Agreement is in the public interest and should
4		be approved?
5	A9.	Yes. As Mr. Spanos testifies, the depreciation accrual rates the Settling Parties
6		have agreed to are reasonable, and implementation of the Settlement Agreement
7		will allow Joint Petitioners to maintain the accuracy and integrity of their books
8		and records. I recommend the Commission approve the Settlement Agreement
9		without modification.
10	Q10.	Does this conclude your testimony?

11

A10. Yes, at this time.

VERIFICATION

The undersigned affirms under the penalties for perjury that the foregoing testimony is true to the best of her knowledge, information and belief.

/s/ Sabine E. Karner
