RE: Utility Regulatory Commission Hearing

Dear Sir or Madam,

My wife was in the hospital with a very serious cancer procedure today, therefore I could not attend the all important meeting held this evening in Floyd County.

I have two comments:

1. We in Buffalo Trail have only a 4 inch original water line which is completely inadequate for fire department use. FK Water Company refused to upgrade our line to a 6 inch line even though they spent millions recently on extending water lines somewhere. Now they want a fantastic increase in rates again. They DO NOT care about our fire protection even though they could have extended the existing 6 inch line from Chambord subdivision only about 400 feet away.
2. I am 83 years old and still working. We are renting a house to a man and woman in their 50's who both have cancer and cannot work. My wife and I lowered their rent to \$650 for them to have a roof over their heads. We asked the FK Water Company to give them a "hardship rate"— guess what —they refused. How greedy can a company be!

In our opinion a 24.35% increase is preposterous . I haven't gotten a cost of long raise in years. We sincerely hope you will have mercy on all of us and disallow their request.

Sincerely,
Irvin Stumler
