Cause No. 45621/Natural Gas

To whom it concerns,

I am a NIPSCO Gas customer, who has limited income, and I ask that you please REJECT NIPSCO's request to raise our natural gas bills yet again. NIPSCO had asked for an increase in 2018 and it was approved, and now they are asking again to raise the cost of natural gas.

**Your
Comments::**

If this request is approved, it's going to cause our bills to go up by almost 20%, and that's above and beyond the significant increases we've already seen in the cost of natural gas.

Please fight for us to ensure that monthly gas bills are affordable, just, and reasonable. We can't afford to continue to have constant increases in our bills, and we worry if we are going to be able to afford to heat our homes throughout the winter months.

NIPSCO Rate Case Cause #45621

**Your
Comments::**

Hello,

I understand there is a case pending review for an extremely large rate increase for NIPSCO.

I respectfully request you consider the effect such a large increase will have on the elderly, as well as those of us who are single &/or families who are struggling to make ends meet.

This has been a very rough last 2 years for all of us, and I understand a public utility has expenses to meet, but please, please do not give them any more than is absolutely necessary, as such a large increase could seriously affect many people I care deeply about who are truly struggling.

Please don't just agree to anything that is not absolutely necessary.

Thank you very much for your consideration, and stay well.

~Deborah Bell

I hold two accounts with nipsco, one as a business owner and another as a resident.
I do not support this rate increase.

Please find more exploratory ways to manage inflation. Nipsco customers do not have the ability to choose another company for their natural gas services, which creates a more than obvious opportunity for Nipsco to control their own profits and effectively take advantage of their customers

Nipsco, as a public service, owes themselves and the people forced to use their service, a more in depth look at operating costs until absolutely every idea that DOESNT require charging the people more, is exhausted.

Please consider the struggles of companies competing in the free market.. nipsco doesn't have any clear competitors in their service area. This is a company who is able to build sales and profits without competing. .. NiSource reported over a quarter million dollars in profits in just the first quarter of 2021.

If they need more money to continue building a more sustainable infrastructure, maybe they could seek aid from the government.

UCC Consumer Services,

It was brought to my attention that NIPSCO wants to increase the customer service charge by more than 57%. They also want to increase the Therms by 17%. This is absolutely uncalled for.

We've had to endure more than 6% monthly inflation rates for several months now. If we would receive additional services for the radical increase, that might be justified.

East Chicago, along with several other cities that NIPSCO services with Gas & Electricity are low income cities. If people are already struggling to pay their utility bills, this increase would make it worse for everyone.

As a resident of East Chicago, let's find a mutual benefit that NIPSCO and their customers would be happy with. Let's find a win/win solution, not a win/lose solution.

Thank you,

I strongly oppose any rate increase requested by NIPSCO for natural gas service or customer service. Every increase strikes the budget so many of us live on. I personally use every option available to me to keep my utility charges with my financial capability. I own energy efficient appliances, keep my thermostat below 70 in the winter and at 75 in the summer, have unplugged energy drawing lighting, televisions not used, and appliances also not in use. In spite of my attempts my bill increases with care free abandon.

I understand that NIPSCO has a board of directors, stockholders and executives to report to. That said, perhaps changes starting at the top with salary adjustments and stock options and executive perks should be revised. Customers have had to adjust their finances to accommodate previous increases that have risen to almost a mortgage payment.

My concern for the gas increase is that they are asking too much. I understand they need to make money to stay in business, we were in business for ourselves for 46 years. I wasn't able to charge my customers for being a customer as NIPSCO does with the customer service charge. If someone wants to disconnect with the option to reconnect then the charge seems appropriate, but to charge an active customer on top of the regular bill just seems like greed. I don't know how much the CEO, president, board members, etc are paid but maybe they should look to cut those costs first before looking to their customers.

We have always supported NIPSCO realizing they were a higher priced utility company than in other areas but they always did the job. They always did the job until this summer. Our power had gone out 10 times from mid June 2021 until mid December. The outages lasted from 15 minutes - 12 hours. These were not storm related outages, they appeared to be random. We just had to spend \$7676.00 to replace our whole house generator since with no power we have nothing. Nothing means no water, heat or a/c, refrigerator, lights, sump pumps-absolutely nothing. With all the housing construction in the area we would like to know if they have thought about upgrading the electrical grid or better yet slow the building in NWI until infrastructure can catch up.

I realize the mass building in NWI also brings in paying customers to our area, this affects the economy both public and private. NIPSCO also gains from this but they also have the initial cost of infrastructure, but don't forget their customers also pay hookup fees, fees for putting in underground electrical, fees for putting in a bigger gas meter if you are adding a generator, most likely other fees that I'm not aware of too. Their money doesn't come from only the customer bill.

Please look at the whole picture.

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

As a senior citizen and LIFELONG NIPSCO consumer, I object to the proposed 17% increase in natural gas service. Inflation has contributed to the 5.9% increase in my social security benefit, but 5.9% is a far cry from 17%! This rate increase seems excessive. NIPSCO has always been known as a HIGH RATE provider. To allow a 17% increase at a time when groceries, gasoline, prescription drug prices, and other essential living expenses are on the rise is not a wise decision. In addition, NIPSCO has asked to increase the monthly service fee from \$14 to \$24.50. While these rate increases may seem "minimal" to NIPSCO, to seniors the increase is monumental. Please consider the rate of inflation and, instead of approving the 17% NIPSCO has requested, adjust the increase to be more in line with reality. Twenty dollars a month may not sound like a substantial amount to some, but to those on a fixed income that \$20 may be a life-changing charge that couldn't come at a worse time.

To whom this may concern;

I just read online about another increase. The rates are getting ridiculous and I can no longer afford to heat our home comfortably and with another increase coming soon, I won't be able to afford to heat the home at all. I'm a retired individual with not much coming in per month. The cost of medicare, my supplement insurance, medications and regular bills as well as groceries going up, I have nothing left. How is one suppose to live or survive?

It seems like the Nipsco rates have already gone up because my bill has doubled in 1 month compared to last year. My usage is less this year than last year. This is ridiculous!

I would appreciate if you would look at seniors and everyone in general before adding another 17% raise to the bills. You're going to hurt many people because of this and will affect many consumer's.

****** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ******

Dear OUCC Consumer Services:

I am a NIPSCO residential gas customer opposed to NIPSCO's proposed gas rate increase. My comments are on my behalf. I am requesting that NIPSCO's gas rate increase be denied for the following reasons.

NIPSCO is using the rate increase to pay for unnecessary costs so that their parent company NiSource can improve their ESG(Environmental, Social & Governance) score. NIPSCO President and COO Michael Hooper states that they must move to "more sustainable energy" and "renewable energy", which means replacing coal as a source of energy with wind and solar. Why? Is it because they feel threatened by the Biden administration's ridiculous goal of shutting down all coal production? Is it because they want a better ESG score? Hooper says that they plan to spend \$40 billion over the next 20 years to retire coal-fired generation. Is that in the best interest of their consumers? Or are they doing so purely for their stockholders worried about their high risk ESG score? [NiSource Inc. \(NI\) Environment, Social and Governance \(ESG\) Ratings - Yahoo Finance](#)

As we've seen in Texas and other states, wind and solar are not reliable energy sources for utility companies. How reliable is wind and solar going to be in Indiana? It will never be as reliable as coal, as efficient as coal or as affordable as coal. So clearly, NIPSCO's motivation is not to provide their customers with a better energy source or a more affordable energy source. See sources below.

[Two New Reports Detail the Unreliability of Solar Power - ClimateRealism](#)

[Winter's Inevitable Wind & Solar Output Collapses Guarantee More Deadly Blackouts – STOP THESE THINGS](#)

[State Governments and Utilities Urge Electricity Rationing - IER \(instituteeforenergyresearch.org\)](#)

While they tout their past of lowest energy rates, spending \$40 billion in the hopes that it will be enough to continue to provide consistent and affordable service doesn't seem likely. They claim that electric customers rates will go down. Based on the unreliability and cost of wind and solar, I suspect their rates will need to rapidly increase. [The Real Cost of Wind and Solar - American Thinker](#) Which is why this rate increase needs to be denied now before they go any further down this road.

What about NIPSCO gas only customers like myself? It appears that gas only customers will be in fact subsidizing this unproven woke sustainability plan to rely on unreliable energy sources of wind and solar for their electric consumers. How is that fair?

Finally, I would also like to know why NIPSCO spent tens of thousands of dollars this year on TV and radio advertising if increased costs are such a concern to them? I can't switch to another gas company tomorrow so their advertising is a waste of money that we customers are paying for. I would like to have the total expenditure of their advertising entered into the record. This would

include all fees paid related to their 2021 advertising including advertising agencies, production companies, talent and advertising schedules made part of this record.

Thank you in advance for your efforts on this case.

Sincerely,

Thomas Metzger

the natural gas fees. As a consumer who manages my parents fixed income they can not afford an increase in heating costs. They are barely able to pay their bills and do not qualify for assistance to help with expenses.

Increase in services to families/individuals on fixed income can mean the difference of missing a meal or not having enough food over having to pay an increase cost in a utility.

I thoroughly oppose the 17% gas hike that Nipsco is trying to pass. My gas bill has already doubled since last year and we wouldn't be able to afford another increase. We are not on the budget plan and we pay our bill in full every month. At some point, something has to give. They already charge so much!

Consumer Counselor,

Re: NipSCO Customer Charge Increase

NipSCO is requesting a customer charge increase of \$24.50 monthly from 100,000 customers, or nearly a billion dollars a month and over a billion monthly in total (\$14 to \$24.50 mo) - do these pay for meters, gas, office etc?

I don't expect a business to operate at a loss, but I do expect them to have expenses against profit. This increase is exorbitant.

My guess would be that they are asking for the stars expecting less, I hope it is no where even close to their requested amount.

Sincerely,
Carole Smith

Hello,

My name is Alexandria Elwell and I live at 710 E 11th St, Michigan City, IN 46360, I am very concerned about the 17% gas hike that is proposed by Nipsco for gas.

This increase is very unacceptable most of the citizens in my town barely get by as of right now, including my self. If this increase would go into effect it make the cost of living even harder than it already is. Not everyone in my town, including myself would qualify for any financial aid to help food or other financial help.

Please try to think of this issue from mine and others perspective. How is this even possible option with the fact there is still a pandemic going on? Are we really going let this company decide if the citizens will have to choose between either being able to eat and clothing on their back versus keeping the lights/heat on? Why don't citizens of have another option for a provider for utilities besides NIPSCO?

These are just a few questions many of us have. Again, please don't let this company make it any harder for us to live a happy and healthy life than we already struggle to achieve. Thank you for your time!

Sincerely,

Alexandria Elwell

Why does Nipsco have to keep raising these rates? I have read numerous times that they are one of the highest energy companies in the United States. We are on the budget plan which already is so high, it is becoming an effort to pay it and we never miss a payment anyway. Now it is to the point that we have to keep out heat so low, it isn't comfortable in this colder weather. They need to figure out how to lower rates for people instead of raising them.

Increase in nipsco rate of 17 percentage. Rate is unjustified. The economy inflation rate is high enough. Time they take loss . Instead of passing cost to repair there equipment. Or increase in their cost to the customers. Other small businesses have to adjust their profits.

To whom it may concern,

We are totally against the proposed 17% gas rate hike from NIPSCO. We are NIPSCO customers and have been our entire married life (28 years). Please stop this proposed rate hike. Money is tight everywhere now and this is ridiculous.

Thank you for listening.

Hello Indiana Office of Utility Consumer Counselor,

My name is Vince Santolino 411 Rockwood St # B La Porte, IN 46350. I am writing you because I am concerned about Nipsco's proposed 17% gas rate hike! Please represent me at the Nipsco's rate hearing.

I am told you guys help us. Thank you. Respectfully, Vince

I wish to state a 17% increase in nipsco gas prices is unfair to all people in northern Indiana. This increase will allow prices increase when people already dealing with higher prices every where else in life such as food and gas. Please do not allow this to pass.

Please No NIPSCO hike! I can't afford to pay my bill now. If it wasn't for energy assistance I wouldn't have NIPSCO today. So many people are struggling this is not a time for a price hike. Smh please reconsider.

I totally am against a gas raise of 17%as I am a disabled person, struggling to help myself as well as my community. I can only do so much with my minimal income, and would not be able to pay it. I would have to lose my home.

To Whom It May Concern:

I am a resident of Michigan City Indiana and NIPSCO is the provider for electric and gas in the area. I am opposed to the proposed 17% natural gas rate increase, as well as the proposed fixed service rate increase. The residents of the county as well as the state can not afford to pay the current rates so any additional increases will have a significant negative impact. The current economic situation in this country has already impacted my city. When I moved back to this area in 2020 the electric, gas, water and cable prices were of great shock to me. How can anyone afford these prices!!!

Please take this into consideration before approving any increase.

Sincerely
Gloria Stephens

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

To Whom It May Concern:

We are opposed to any NIPSCO natural gas rate increases. As retirees with a fixed income, we find that our gas heating costs are already a substantial part of our budget. We do what we can to reduce them by keeping our home at a lower temperature, increasing insulation by blocking drafts, and having a high energy furnace. NIPSCO needs to find solutions to their infrastructure improvements other than burdening customers.

Sincerely,

Fred and Cheryl Nix

To whome it may concern,

I'm contacting you in regards to the 17% increase that I was Informed about. I'm letting you know that it is completely unfair to raise the prices like this. I'm a single parent and a single income home. It's unrealistic for the increase in my case. I have never missed a payment. I know that I'm not alone on this alerting situation and wanting the increase to be stopped before it even happens. You will see so many people not being able to make payments. Please be thoughtful of our community and these hard times for all families.
Thank you,

Natalie Euler

As a senior citizen and LIFELONG NIPSCO consumer, I object to the proposed 17% increase in natural gas service. Inflation has contributed to the 5.9% increase in my social security benefit, but 5.9% is a far cry from 17%! This rate increase seems excessive. NIPSCO has always been known as a HIGH RATE provider. To allow a 17% increase at a time when groceries, gasoline, prescription drug prices, and other essential living expenses are on the rise is not a wise decision. In addition, NIPSCO has asked to increase the monthly service fee from \$14 to \$24.50. While these rate increases may seem "minimal" to NIPSCO, to seniors the increase is monumental. Please consider the rate of inflation and, instead of approving the 17% NIPSCO has requested, adjust the increase to be more in line with reality. Twenty dollars a month may not sound like a substantial amount to some, but to those on a fixed income that \$20 may be a life-changing charge that couldn't come at a worse time.

Respectfully submitted,

Bruce and Patricia Frankinburger

To whom this may concern;

I just read online about another increase. The rates are getting ridiculous and I can no longer afford to heat our home comfortably and with another increase coming soon, I won't be able to afford to heat the home at all. I'm a retired individual with not much coming in per month. The cost of medicare, my supplement insurance, medications and regular bills as well as groceries going up, I have nothing left. How is one suppose to live or survive?

It seems like the Nipsco rates have already gone up because my bill has doubled in 1 month compared to last year. My usage is less this year than last year. This is ridiculous!

I would appreciate if you would look at seniors and everyone in general before adding another 17% raise to the bills. You're going to hurt many people because of this and will affect many consumer's.

Regards,
Debra Abel

Nipsco Gas

**Your
Comments::**

A hike of 17% is extremely upsetting. My family along with many other middle class families are barely making it paycheck to paycheck as it is. We understand that an increase in service cost may be necessary with the time being but something less than 17% would be much easier to work with.

We don't need increases in NIPSCO at this time, is this how you cover the funding to those of us who gain assistance through Real Services and others? Everyone I know makes donations to the United way and other organizations to assist. This action reminds me of double dipping , increased employee pay, administrative, etc. Please don't, not now.

Hello, I'm just concerned about the proposed

**Your
Comments::**

raising of NIPSCO gas prices.
The raise in price would make it very hard for me and my small family. Our finances are already paper thin with everything going on, and we are really worried about keeping our house warm and our two toddlers safe. Please take this as a serious concern for us and many others.

Thank you
Sincerely,

Joel Wolter

Come on, are you all for real?. We have already had an increase, and now another? As we're still sitting at a level red, and a lot of people still struggling to make ends meet, you find it appropriate to add another increase? Explain why in laymen's terms why you have to suck families dry. Explain to children why mom and dad are at wits end. Seems to me the fat men just get fatter.

Concerning Nipsco's request for increases to pay for infrastructure improvements:

Should their current rates not pay for needed improvements? Do they not know how to plan?

In an atmosphere where inflation is already impacting retirees and others pretty hard, I submit this is not the time. I urge you to NOT approve Nipsco's request for rate hikes.

Donn Urban

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

**Your
Comments::**

My wife and I are in our 70's and on a fixed income. The proposed rate increase, along with the current inflation will create a financial hardship not only on us but thousands of others. This along with the rising prices of food, and gas begs to ask the question why now? Nipsco has enough in resources that we do not see how this can be justified. Thanks

NIPSCO

**Your
Comments::**

I am a retired 71 year old. I live with my wife who is a retired teacher. When we retired we moved to a smaller house and reduced all of our bills so that we could live on our retirement funds. We felt we did a good job planning our retirement and have been able to get by without any additional help for the past five years. This year every thing that we are forced to spend money on, "food, taxes, internet, cable, clothing, and utilities" has gone up 10 to 15 percent. We are currently having trouble paying our bills. Now NIPSCO wants to raise the cost of gas. My NIPSCO bill has already gone up. I am on a budget plan and my bill has gone from \$170.00 per month to \$185.00 a month. I look at my bill and see that every item that they charge has gone up almost 10%. Please don't let them increase the cost of gas! I can't afford it! And what is even more scary is the fact that there are a lot of NIPSCO customers that are in far worse shape then me. Thank you for letting me voice my concerns. The question is: "Will it do any good"

Detail Charges
Charges for Residential Gas Service - Rate 111

Gas Supply Charges
Gas Commodity Charge \$41.66
Interstate Transportation and Storage Charges \$8.16
Total +\$49.82

Delivery Charges
Delivery Charges \$48.75
Total +\$48.75

Indiana Sales Tax +\$6.90

Total Charges for Gas Service This Period \$105.47

As you can see, over half of my bill is made up of delivery charges for the same infrastructure that has been in place since 2000. This practice was put in place when NIPSCO purchased Kokomo Gas & Fuel back in the mid 2000s.

**Your
Comments::**

Perhaps NIPSCO should forego the delivery charges and just keep the \$14 Customer Service Charge for nebulous reasons, Perhaps the cost increase should be absorbed by NIPSCO, as they pay their CEO such an exorbitant salary, I'm sure they can absorb the cost increase.

The cost of delivery shouldn't cost as much as the fuel I'm billed for, especially since the delivery system has been in place to my homestead since 2000 and hasn't deteriorated since that time. \$48/month for delivery is quite the extreme cost, but when business uses shipping cost as a profit motive, I guess nothing is out of line.

Nothing NIPSCO offers justifies an increase of \$30/month for the cost-of-service provided.

Our local utilities NIPSCO, are looking to raise

Your Comments::

the gas rate by 17%. The rates for delivery have gone up almost 50% over the last months. So my delivery charge is almost as much as we use. My budget alone is \$360 a month which is up from \$308.

A raise in gas would make my bill outrageous. We can barely keep up now. With a rate increase, we will not be able to sustain.

They just recently received a large sum of government funds & their profit is ridiculous! As the system is outdated and many people have constant issues, they are not dipping in their pockets/profits to fix the system but looking to consumers to pick up the tab.

Please help NWI Hoosiers! Now I am understanding the phrase Heat or Eat scenario. As I am already panicking to make it through the winter months.

Also why is there no law to protect us from being shut off??? People are going through very hard times and they should not have to worry about not having basic necessities.

Thank you for your time in reading this!

Nipsco

**Your
Comments::**

My whole family has endured the rate hikes by Nipsco my entire life. If not the electric side it's the gas side. There is no reason for a company to keep raising rates of gas which comes out of the ground, they transport it through pipelines , they even use it to pump into oil wells to push the oil out. They have underground storage at Royal Center Ind. and LNG plant in east LaPorte Indiana. Thank for this forum.

I adamantly oppose NIPSCO/NiSource's proposed gas rate increase. Their already established rates have given their corporation year over year profit and adding to this will put an undue strain on the members of our communities. This proposal is not an indication of the market fluctuations but corporate greed.

I am on a fixed income and this rate increase is really hindering my budget. I don't understand why we have carriers and distribution rates. Are we the only area in the state that has this issue. I wish someone could explain this to me, so I have a clearer understanding.

**Your
Comments::**

One other issue I have . I'm on a budget and my rate increased by \$16.00 a month and there wasn't any explanation of why I had this increase, until this fall when I read in the newspaper that a rate increase was going into effect. Also, I made my payment on November 16, 2021 of \$250.00. I receive my next billing ending December 10, 2021 and I have an Amount Past Due... I contacted NIPSCO and spoke to Juanita, after going through numerous prompts to speak to a human person. In the beginning of our conversation I explained to her that there was a mistake on my billing and she got on the defensive side. After talking to her and she started listening to my complaint our conversation got much better. I don't know where this error occurred with NIPSCO on my billing, but I believe they need to be more careful when they do there job with other peoples MONEY!!!

Thank you .
James VanDe Keere

NIPSCO GAS

**Your
Comments::**

I am a retired senior citizen on a fixed income who has worked 50 years paying my bills and taxes on time. With present inflation, the high cost of vehicle fuel and groceries, a 17% hike of natural gas prices will force me to lower my thermostat to 65 degrees or less from it's now 68 degrees. I am certain NIPSCO has endured a higher cost of supplying its customers natural gas and an increase is expected, but, 17% seems to be extreme when I am already heavily dressed and barely comfortable with a 98% efficiency furnace. Thank you for allowing this venue to exist so I and others may voice our concerns.

I installed a brand new high Efficiency furnace on November 19, to the tune of \$3750, because I had an older less efficient model in need of a cost prohibitive repair. I was looking foreword to a softening of the rate hike Lo and behold, my October budget was 220, November they took 350 My current bill over \$400 due to be auto processed. How in the hell are people supposed to keep up with this. I can't double my paycheck but you can double my bill. Shame on these utility companies, these people are criminals robbing people of their lives! NO MORE STOP THE GREED

NIPSCO

**Your
Comments::**

The latest proposed increase is unreasonable. In 2020, we bought a new energy efficient water heater and furnace. We had new installation and siding installed. Our bill dropped considerably. In the spring of 2021, NIPSCO wanted to increase our bill by \$40 a month on a budget plan because gas prices might increase at the end of the year. Now we've seen our bill jump an extra \$70 a month. We've done what we can to be energy efficient and we're being punished for it. Due to covid, the industry my husband worked in is no longer stable. He had to take a lower paying job elsewhere. At a time when NIPSCO should be cutting their expenses, they've gotten greedy instead.

As a Senior Citizen on a fixed income, a 17% gas hike is really going to make a difference in

Your Comments::

what little money we have every month. The prices are already too high to be affordable, especially in the Winter when we are heating our home.

NIPSCO GAS

Gas prices are already way too high, hiking it 17

Your Comments::

% is just too much. We really don't use that much gas but get charged a big delivery fee every month. In the Summer the delivery fee is more than the gas we use. That sure doesn't seem right. We can't afford a price hike!

NIPSCO

**Your
Comments::**

I respect NIPSCO and the job they do mainly with the electric service. However, just as with most things it has got out of control cost wise. It's getting hard to live nowadays as a retiree. In the old days when I was working as an accountant and controller we had to reduce expenses as opposed to always raising rates all the time. I think a 17% increase in the gas rates should not be approved. Let's hold them to watching their costs for a change. 17% is totally ridiculous. Don't make it automatic.

“TURC Cause No. 45621” NIPSCO GAS

I think the increase for the monthly service charge

**Your
Comments::**

from \$14.00 to \$24.50 is excessive. This is almost double what it use to be. Families, especially seniors, can not afford this. This is \$126 a year. This is a 75% increase. No way should anyone need that large of an increase.

This is a large burden on families with the price of everything else increasing also. A small increase of \$2 or less a month would be more appropriate. This increase will harm families & make it harder for them to pay their bills.
Please do not approve this.
Thank You!

Dauneta Martz

NIPSCO

**Your
Comments::**

Reading about an approx \$20 a month increase on the NIPSCO natural gas plan. That is a LOT per month for an average household. We're talking \$240 or more a year. Everything is going up in cost except wages. What other choice do we have than to pay the bill? I already keep my house at 61 in the winter when at work and a whooping 66 on weekends. This is frustrating because I am doing everything I personally can to keep my utility usage and bills low.

Sadly another rate increase is the last things the citizens of South Bend can afford -raising the monthly service charge as much as requested along with higher rates will lead to more people unable to afford natural gas. I fear in an effort to maintain heat in homes people will use illegal or unsafe ways and risk fired and explosions. South Bend is almost 40% poverty level citizens who cannot afford all these utility rate increases between gas, water, sewer, electric -please vote No for the rate increase -Thank You

Nipsco Gas IURC Cause No. 45621

I am writing to state that I greatly oppose the proposed rate hikes by Nipsco Gas.

Homeowners and businesses should not have to pay for infrastructure projects for Nipsco- I'm sure they make enough profit to pay for it themselves. When other homeowners or businesses need something, we have to figure it out on our own. And an estimated 17% rate hike is just unconscionable!

**Your
Comments::**

In this economy, with the costs of groceries and goods increasing, a rate hike like Nipsco is asking for will put many people in danger of not being able to afford their utilities at all. Nipsco is not even trying to be reasonable.

Please vote against this rate hike! I know I won't be the only person who can't afford this money grab!

Thank you.

NIPSCO

**Your
Comments::**

For the proposed 2023 rate hike. My family and I would be happy to pay the additional amount in costs if we are able to direct or see where those additional funds go to within NIPSCO to ensure that they are used for the reasons stated. Additional transparency from NIPSCO would go a long way into earning the public's trust for this fundraising campaign. Otherwise it's just going to cause more financial pain for many of NIPSCO's customers without necessary proof of providing value back to those same customers.

Gas Rate Hike

Your Comments::

I oppose any utility rate hike, particularly gas and/or electric. There are so many fees & taxes tacked on already, maybe those should be looked at and reduced first, if any

rate hike is to be considered.

NO RATE HIKE!

If the requested rate increase is to help the gas company become more efficient, improve service to customers (that is easily demonstrated) and they will not ask for another increase for 5 years, give them half of the increase now and if they met their commitments after 1.5 years they can receive the other half of the increase. But no more requests for 5 years. Blanket increases without proof of performance should not be given. There should be built in incentives for the company requesting the increase.

Thank you.

Hard to believe a rate hike is in order 2 years into a global pandemic. I am agnostic about the corporate financial situation but the very thought of a rate hike seems tone deaf to public needs and seriously lacking in compassion and empathy. A more thoughtful approach would be to announce a roll back of rates to show understanding and support.

NIPSCO GAS

**Your
Comments::**

Please deny this rate increase being put forth by NIPSCO.

NIPSCO has not sufficiently provided an adequate reason for their proposed rate increase at this time. NIPSCO is currently divesting itself of its primary coal based energy facilities while changing to a more environmentally friendly solar/wind based electric systems. While this transition is applauded and needed - this rate increase fundamentally tries to cover the costs of that change-over on the backs of the existing gas customers. This rate increase is a brazen attempt to subsidize NIPSCO's declining power income through increases to its gas customers. Again, please deny this rate increase.

"In a recent filing with the Indiana Utility Regulatory Commission (IURC), NIPSCO is looking to raise your rates by 17 percent --- a \$9 per month increase. NIPSCO also wants a \$10 increase to the customer charge --- the monthly fee you pay before using any natural gas. The charge would rise from \$14.50 to \$24.50 a month." We have all Seniors in our apartment building in St. John, In. and this increase would impact them because everyone in the building is on a fixed income and would be a hardship on all. Please see if this can be stopped due to all the other increases due to the high inflation we are experiencing during these times.

You,

of Indiana

Thank

Seniors

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Hello I am a lake county indiana home owner resident I've lived here for 49 years now, I'm now disabeled and am on disability and make around \$786. a month, it's just me and my fourteen year old daughter that live here in Merrillville Indiana together in a small single family home we struggle and barely get by now and do without a lot already and now I've read about the NIPSCO rate raises that have been submitted to you guys for an approval, and I am lucky if I can keep my house warm enough for us to even stay and live in or barely cool enough in the winter so I can breath I am on oxygen and would never survive in the summer heat if I couldn't pay my bill which we struggle to do now I'm scared I'm not gonna be able to afford to pay my bill for us if its raised any higher can you please consider us when making your approval I'm asking you to please not raise my bill anymore or i dont know what I will be able to do to survive any more and I'm sure I'm not alone, I know there are many NW indiana residents that wont be able to pay there gas and electric Bill's if there raised any higher please think about that and us when making your decisions please. Thank you and hope you can search your heart a little when thinking about this Sent from my Samsung Galaxy , an AT&T LTE smartphone

NIPSCO 2022 rate increases.

**Your
Comments::**

Dear Sir. I just received a notice from NIPSCO about their request for rate increases fo 2022. I am against these for several reasons. One, their example of 70 therms costing 9 dollars per mo. Nobody uses only 70 therms a month. My average during winter is 200-250 therms. The real number is the 17% increase across the board. 7-9% would be a better number. Next my bill for Oct was 41.12 for gas supply charges of which there was a charge of 10.44 for Interstate transportation and storage charges. The other part was a delivery charge of 45.54. This charge goes up commensurately with the number of therms. I am paying more for the transport of the gas I use than I am for the gas itself. Do you not control that charge or do you let NIPSCO fee people to death. I realize that the price of gas goes up and down, but transportation costs are relatively stable over established pipelines. The delivery charges would be overpriced at 20.00 per month per household no matter the number of therms, but I would pay the 20.00 so they would not have to cry poverty or complain of going broke all the time. Thank you. Norbert Tyl.

Much prefer e-mail or US Mail rather than telephone contact. Of course, like any other consumer, I don't want to see my bills increase while my income does not. But I specifically want to know why the billing is structured as it presently is. The "gas commodity charge" on the bill should indeed be determined by the usage (and I do NOT understand why CCF are converted to "therms" for that purpose). However, the cost of "Interstate Transportation and Storage" and that for "Delivery" should not vary so much with the usage, as the cost of maintaining both the "interstate transportation and storage" facilities and the NIPSCO "delivery" system should be fairly constant: they do not add more pipeline or storage tanks when I use more and take them away when I use less, nor should they be laying off nor hiring workers as usage varies. Those two costs may increase over time but should not go up and down with customer usage. They should be fixed for each customer location (largely based on how far the pipelines must run to reach it, plus a share of overall operating costs of the utility) and increased only by regulatory approval when system-wide costs increase. A more accurate reflection of the cost of the actual gas one uses might more readily encourage conservation, but keep in mind that natural gas is a far better fuel than electricity, coal, or oil, most especially for heating (buildings and hot water) and cooking! The Commission should also insure that rate increases do not feed money to inflated salaries and benefits of executives nor enrich shareholders at the expense of the ordinary consumers.

I do not agree with Nipsco raising there rates another 17%. People are already paying way to much for Indiana gas and electric as it is. There are thousands of people that are having trouble paying their bill now that they have to make a decision between keeping their family fed or frozen this winter.

I have as house with Nipsco and a house my siblings and I own that was our parents and uses REMC. The houses are almost identical int square footage and the same appliances are on gas. The bill on REMC runs about 55-70 dollars a month. The house on NIPSCO has a boll that is about 170-220 dollars a month. Please do NOT approve NIPSCO's request for a rate increase. It is going to hurt more people! We cannot afford to keep paying rate increases. It doesn't change our service but makes NIPSCO much richer. This just makes me sick that they are charging 3 times as much REMC. Please deny their request.

Hi there!

**Your
Comments::**

I would like to provide my comment and concern for NIPSCO's rate increase request of nearly 17% for its residents. They are requesting this, as noted by them, due to infrastructure and safety. The state of Indiana has also recently awarded Indiana utilities including NIPSCO funding for EV infrastructure. My suggestion and preference is the business of NIPSCO should really focus its resources where it's needed right now, which according to its ask is the failing electrical infrastructure within its region. Ultimately, if a solely owned business needs support from its customers in maintaining existing operations, it should not take on NEW operations. I appreciate the opportunity to mention this and hope the commission considers the impact this has on residents, all while providing funding for a project that shouldn't even be within a utilities purview when private businesses already invest in electrical infrastructure for electric vehicles.

I & M (NIPSCO) / Cause #45621

I am a NIPSCO customer in Fort Wayne, Indiana. My household is comprised of just me (and my pets) and, as such, an increase in charges by this and other utilities is especially impactful. Natural gas usage at my home includes that for heating and to generate hot water.

My biggest concern with the proposal is on the increase in base rate charges from \$14.00 to \$24.50 per month. Every year I utilize the eight-month budget plan and, over the past year, my budget amount was \$45/month, with my summer months' actual bills averaging just over \$16. As such, a \$10.50 increase in each and every monthly bill is sizeable, to say the least.

**Your
Comments::**

In the past, I have done my best to keep my utility bills low by decreasing usage (setting my thermostat at ~60 degrees in the winter and even putting my gas water heater on "vacation" mode at various times throughout the week). As a result, my actual bill over the last 12 months has averaged approximately \$35 per month. An increase of \$10.50 in the base rate represents a 30% increase in billing, and that does not even include any gas rate price increase!

Those homes that are on fixed incomes and have done all that they can to lower usage will bear the brunt of the increases, and I respectfully request that this be taken into consideration when making price adjustments.

Thank you!

45621 NIPSCO gas rate

To Whom it May Concern,

I'm writing about the request that NIPSCO has made to increase bills associated with natural gas for residents in Indiana.

I am one of their customers who is disabled. Although there is assistance for low income customers, this assistance only covers one bill during winter months. As a result of the pandemic, we are facing prices that have skyrocketed for basic goods such as groceries. Currently, we are also facing shortages as well as threatened supply chain issues globally. Many homeowners who have managed to keep their homes cannot afford unreasonable increases in their utility bills. Additionally, the United States has plenty of natural gas. It is not right for the suppliers to be allowed to pass this cost to those who need natural gas to heat their homes. They did not put enough natural gas into storage for the winter months. This is a form of price gouging. The customers have no control over gas storage and are at the mercy of these suppliers. I'm including a link for the information I am supplying here and my reasoning for protesting against these increases. <https://www.cnbc.com/2021/09/09/natural-gas-prices-are-rising-and-could-be-the-most-expensive-in-13-years-this-winter.html>

**Your
Comments::**

Indiana has enough residents struggling for survival during this pandemic. We need the help and support of our state to protect us from practices which endanger our health and well being, especially those who are retired, disabled, on fixed incomes, and families with children.

Thank you for your attention in this matter.

Sincerely,

Suzanne E. Walker

NIPSCo

**Your
Comments::**

NIPSCo is wanting to raise the monthly customer charge from \$14 to \$24.50. That is almost double the amount currently in place. I do not think they should be allowed to do this for the small consumers like me. This is much too large of an increase. Their profits in the past year have been very good, so they should lower the profit margin and increase the fee only for large users of gas. I also disagree with the 17% increase in gas cost. COLA is being set at 5.9% for this past year they should not be able to exceed this percentage increase, especially since they are very profitable. I could not find the case number to file these comments under, so hopefully, you will add my comments to that location. Thank you.

Dear Olivia-

Thank you for your response on the NIPSCO gas rate case.

The insert below was included with the NIPSCO bill I just received. Please note the two marked paragraphs. The paragraph on the left panel of the insert says that the rate increase is estimated to be \$9 per month. The paragraph on the right panel says that "change includes a proposed increase in the monthly customer charge from \$14 to \$24.50", or \$10.50. Clearly that doesn't make sense. A \$10.50 increase can't be included in a \$9 increase. I did call the NIPSCO telephone number for clarification. While the agent was very responsive, he was unable to provide an explanation. He contacted others higher up in the organization, but they also couldn't help. He indicated that someone would get back to me, probably next week.

If you weren't already, I just wanted to make you aware of this communication to consumers. We certainly don't need any more confusion or perceptions of smoke and mirrors on a potential total increase of \$19.50 per month or \$234 per year. I also hope that the appropriate metrics are put in place to hold NIPSCO accountable for achieving the benefits cited for any rate increase, e.g. reductions in equipment downtime, fewer power outages, faster response time on service calls, achieving the benefits claimed for capital investments, etc.

Thanks for your assistance,
Dave

Delivering Value and Improved Service

Facts about NIPSCO's Gas Regulatory Rate Review

Customers depend on a reliable and safe supply of natural gas at a fair price. That's why we work hard to continually improve service, manage costs, and keep customers safe.

Our most recent natural gas base rate increase was approved in 2018. We are investing approximately \$885 million in system upgrades, technology and pipeline safety and reliability initiatives to be completed through the end of 2022, with plans for future, continued investments.

We have been the lowest natural gas cost provider in Indiana on average over the last 10 years (Source: Indiana Utility Regulatory Commission's 2021 Residential Bill Survey) and

into effect earlier than September 1, 2022.

This estimated change includes a proposed increase in the monthly customer charge from \$14 to \$24.50. Benefits of the increased customer charge would include less volatility in customer monthly bills and reduced winter bills for high use customers.

Actual projected bill impacts may vary by customer, depending on usage and future potential changes in market prices for natural gas.

The IURC will review our request and solicit input from customers. It can take approximately 10 months before the IURC reaches a decision.

Questions? Find additional resources, including frequently asked questions and energy-saving tips at NIPSCO.com/GasRates.

Learn more at:

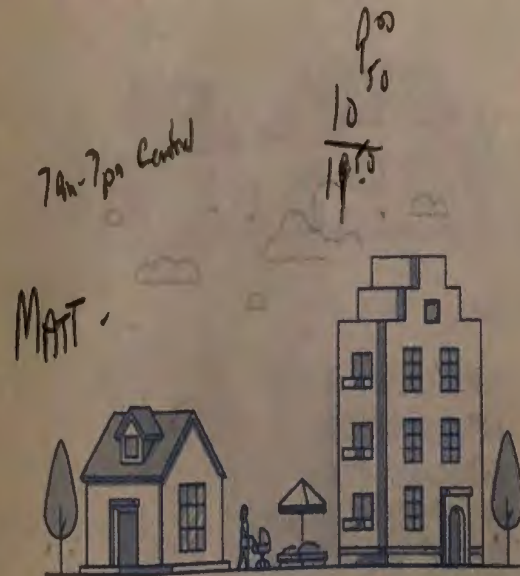

among the lowest in the nation.

Meanwhile, our costs to provide service to 850,000 customers across 32 counties have increased and continue to increase as we upgrade our services and infrastructure today so we're prepared to safely and effectively meet tomorrow's energy needs.

Because of these changes, we submitted a detailed proposal with the Indiana Utility Regulatory Commission (IURC) requesting permission to increase our natural gas rates. Under NIPSCO's filing, a residential customer using 70 therms per month, paying approximately \$55 today, would see an overall increase of approximately \$9 per month, or 17 percent.

New rates are proposed to be phased in over two steps. The first phase rates would not go

We vote NO to Nipsco requesting a hike in prices and processing fees. With our Government already trying to tax us more, destroying our energy independence and inflation caused by Democrats under Biden's administration, we don't need any additional expenses to deal with. Nipsco has done nothing to deserve more of our money.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Watching a NIPSCO residential line installation last week at 2020 Woodland Estates Dr., Elkhart IN 46514 (new house).

3rd party contractor arrived at 8:00 AM and stayed until 2:00 PM. 5 trucks and ditch diggers with 12 men, and 1 NIPSCO inspector.

Purpose was to lay a line from the street side main line (off of street) to the house. Was determined to hand dig (75 feet) rather than use ditch digger. So we had 2 men in the ditch and 1 NIPSCO inspector. The other 10 men were standing around looking important. Located at a dead end street with no traffic flow, yet they manned 2 posts for traffic control of a job that was performed on private land off of the street. The only men in the street were the non-working observers and all the trucks. At 1:00 PM, the city recycle truck came (50 foot long garbage truck). There was no possibility of turn around, so he had to reverse back up through the congestion for 1000 feet, while they stood around and watched.

Just an example of wasted manpower contracted out that utility customers are paying for and probably not supervised by NIPSCO. They had enough manpower they could have been working on 3 jobs.

If we are going to change the rate at all then we need to address there service and distribution charges. there too high. Very noticeable in the summer when there distribution and service charges are more than the gas cost. Not to mention if I had a electric water heater i would be paying just the fees to have it set there in warm months. I believe at a minimum. The fees should never be more than the gas used cost.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

I'm sorry but I'm permanently handicapped in a wheelchair for the rest of my life and all you people want to do is charge us more and more money to pay our gas payment. I cannot work I get social security and yes this year it raised but who knows what will happen next year this pandemic is killing poor people I can't get any more help Stop trying to charge poor people more try charging the rich houses more. Not the crippled .

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

This negatively impacts mostly those on limited income who are already having difficulty making ends meet. And the utility company appears to be using the increases to pay for upgrades that they should be paying for instead of making so much profit for the stockholders. That's what responsible businesses should be doing.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

****** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ******

Dear Decision Maker,

Every time we turn around, it seems like utilities are raising their rates, giving raises to the top company executives as well as making corporate contributions to politicians and then raise our rates to pay for these things. Just like our neighbor state to the west, Commonwealth Edison and its history of "friendly relationship" with getting constant rate increases.

I strongly urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month as well as their other increases, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas. In addition, many of our citizens are still suffering from COVID-19 and the fallout from everything concerning it.

We just can't afford to have our utility rates raised again and again. Please protect residential customers and reject any and all increases to the already too-high customer charge.

Thank you for your consideration.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Dear Decision Maker,

NIPSCO has been abusing their monopoly status for years!! In the summer, I use \$.31 to \$1.21 of gas/month, but get charged a delivery fee by NIPSCO of \$21, then throw in taxes, use and federal fees, and I'm paying \$35-\$45 for using less than \$2 worth of gas!
I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Dear Decision Maker,

Please do not allow the price increase that NIPSCO is asking for. Many and not just the elderly are having a difficult time paying the present fees. Please think of all those who are scrimping to save and often do without heat because of the cost of living. I know you let people have heat in the winter without payment but the payment does come due and paychecks/social security has not risen that much.

Thank you for your consideration.

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Utilities should not be allowed to increase higher than the Social Security percentage increase - which was only .059% this year. The Social Security increase stays too low and these increases from businesses soar way too high.

By increasing the supply charge, they hope to make that stick when they finish with the new solar farm - reducing their costs for energy while increasing their profits from us. This is all double dealing and should not be tolerated - especially since they got grants to keep their prices low. Oh, we're not suppose to remember that?

Thank you for your consideration.

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

I am a 74 year old mortgaged home owning retired teacher on a very fixed income. Frankly, in the 20 years I have been a NIPSCO customer, the service has been inadequate and infuriating. I refuse to believe that NIPSCO suffers from lack of funds- Seriously? This is verging on highway robbery.

Thank you for your consideration.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Date: Tuesday, January 18, 2022 5:04:43 AM

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Counselor Fine,

I am a NIPSCO Gas customer. Since you represent utility customers like me, I ask that you please urge the IURC to OPPOSE NIPSCO'S requested rate increase. NIPSCO is once again prioritizing corporate profits over Hoosiers.

I'm especially concerned about their request to increase the monthly fixed charge on my bill by 75%. Increasing the fixed charge from \$14 to \$24.50 means that the less natural gas I use, the harder this increase will hit me.

Please fight for us. We can't afford these endless increases in our monthly bills!

Regards,
Dusanka Donley

Dear Counselor Fine,

As a NIPSCO Gas customer, I am very concerned about their request to hike our gas bills again.

NIPSCO has recently received over \$1 BILLION in rate hikes, and now they're asking for even more? We can't afford to keep paying more and more on our natural gas bills, especially while a pandemic is still raging!

Please fight for us. We can't afford to have our bank accounts drained like this.

Regards,
Gary Walker

Dear Counselor Fine,

YOU NEED TO STAND FOR US!
DO YOU UNDERSTAND?!
NONSTOP RATE HIKES NEED TO STOP!

As a NIPSCO Gas customer, I am very concerned about their request to hike our gas bills again.

NIPSCO has recently received over \$1 BILLION in rate hikes, and now they're asking for even more? We can't afford to keep paying more and more on our natural gas bills, especially while a pandemic is still raging!

Dear Counselor Fine,

I am a NIPSCO Gas customer, and I ask that you please REJECT NIPSCO's request to raise our natural gas bills yet again.

If this request is approved, it's going to cause our bills to go up by almost 20%, and that's above and beyond the significant increases we've already seen in the cost of natural gas.

Please fight for us to ensure that monthly gas bills are affordable, just, and reasonable. We can't afford to continue being cash cows for NIPSCO's profits. Where is the money from the last rate increase going now.

Please consider a sunset clause on all rate increases once the project has been paid for and completed.

Regards,
Neil Warner

Dear Counselor Fine,

Good day,

I am a NIPSCO Gas customer, and I ask that you please REJECT NIPSCO's request to raise our natural gas bills yet again.

If this request is approved, it's going to cause our bills to go up by almost 20%, and that's above and beyond the significant increases we've already seen in the cost of natural gas.

Please fight for us to ensure that monthly gas bills are affordable, just, and reasonable. We can't afford to continue being cash cows for NIPSCO's profits.

My first bill of the season was nearly as big as my highest bill all last year already and it was for November and December, which were the warmest months on record for our area.

Subject: Say NO to NIPSCO's New Charge
Date: Sunday, January 16, 2022 3:03:50 PM

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Subject: OPPOSE NIPSCO's Requested Rate Hike - Cause Number 45621
Date: Tuesday, January 18, 2022 10:31:50 PM

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

Dear Counselor Fine,

I am a NIPSCO Gas customer. Since you represent utility customers like me, I ask that you please urge the IURC to OPPOSE NIPSCO'S requested rate increase. NIPSCO is once again prioritizing corporate profits over Hoosiers.

I'm especially concerned about their request to increase the monthly fixed charge on my bill by 75%. Increasing the fixed charge from \$14 to \$24.50 means that the less natural gas I use, the harder this increase will hit me.

Please fight for us. We can't afford these endless increases in our monthly bills!
