DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA

**DIRECT TESTIMONY OF JOHN R. PANIZZA
DIRECTOR TAX OPERATIONS
DUKE ENERGY BUSINESS SERVICES LLC
ON BEHALF OF DUKE ENERGY INDIANA, LLC
BEFORE THE INDIANA UTILITY REGULATORY COMMISSION**

1

I. INTRODUCTION

2

Q. PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.

3

A. My name is John R. Panizza, and my business address is 525 South Tryon Street,

4

Charlotte, North Carolina 28202.

5

Q. BY WHOM ARE YOU EMPLOYED AND IN WHAT CAPACITY?

6

A. I am employed as Director, Tax Operations, by Duke Energy Business Services

7

LLC, a service company subsidiary of Duke Energy Corporation (“Duke

8

Energy”), and a non-utility affiliate of Duke Energy Indiana, LLC (“Duke Energy

9

Indiana” or “Company”).

10

Q. PLEASE DESCRIBE YOUR RESPONSIBILITIES AS DIRECTOR, TAX

11

OPERATIONS.

12

A. The Tax Operations Department is responsible for maintaining and reconciling

13

Duke Energy’s tax accounts and for the reporting and disclosure of tax-related

14

matters. As Director, Tax Operations, I have overall responsibility for corporate

15

tax compliance, and accounting for Duke Energy. The Duke Energy Tax

16

Operations Department, which I manage, is staffed by the public accounting firm

17

Ernst & Young to provide efficient and technical tax services, and is responsible

18

for all federal, state, and local income tax returns for Duke Energy, including

19

various joint ventures if Duke Energy is the designated tax matters partner.

DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA

1 Q. PLEASE DESCRIBE YOUR EDUCATIONAL AND PROFESSIONAL
2 BACKGROUND.

3 A. I have a Bachelor of Science degree in Accounting from Montclair State
4 University and a Master's in Taxation from Seton Hall University. I am a
5 Certified Public Accountant in the state of New Jersey. My professional work
6 experience began in 1989 as an auditor with KPMG. From 1993 to 2002, I held a
7 number of financial positions primarily at two companies, in telecommunications
8 and automotive (AT&T Corp., and Collins & Aikman Inc.). In 2002, I joined
9 Duke Energy and have held a number of financial positions of increasing
10 responsibilities, including various accounting and tax related positions. In March
11 2018, after a three-year rotation primarily in Corporate Accounting, I moved back
12 into the role of Director, Tax Operations, a position that I had previously held.

13 II. PURPOSE AND SCOPE OF TESTIMONY

14 Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THIS
15 PROCEEDING?

16 A. My direct testimony addresses the following three topics. First, I will discuss
17 certain key provisions of the recently enacted Inflation Reduction Act ("IRA")
18 relevant to this rate case filing. Second, I will provide support for Duke Energy
19 Indiana's federal and state income tax expense, specifically addressing the tax
20 rates utilized in this rate case filing. Lastly, I will address certain aspects of Duke
21 Energy Indiana's property tax expense.

DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA

1 Q. WHAT TAX INFORMATION DID YOU PROVIDE TO OTHER
2 WITNESSES?

3 A. I provided tax information to Company witness Mr. Rutledge for the Forward-
4 Looking Test Period. I also provided various tax information to Company witness
5 Ms. Graft for her use in computing adjusted Forward-Looking Test Period income
6 tax expense, including the statutory federal and state income tax rates for Duke
7 Energy Indiana that are expected to be in effect during the Forward-Looking Test
8 Period. I provided these same statutory federal and state income tax rates to
9 Company witness Ms. Graft for her use in calculating the gross revenue
10 conversion factor.

11 III. RELEVANT TAX RELATED CHANGES IN THE IRA

12 Q. PLEASE BRIEFLY DESCRIBE THE IRA.

13 A. On August 16, 2022, President Biden signed H.R. 5376, more commonly referred
14 to as the IRA, into law. The IRA introduces new and expands existing federal tax
15 credits that are intended to incentivize the development and use of renewable and
16 alternative carbon-free energy sources. Most notably, the IRA includes changes to
17 the production tax credit ("PTC") and the investment tax credit ("ITC") provided
18 under Internal Revenue Code ("IRC") §§ 45 and 48, respectively, and implements
19 new transferability provisions allowing eligible taxpayers to transfer credits to
20 unrelated taxpayers under IRC § 6418. To help offset the costs of these
21 incentives, the IRA also establishes a 15% corporate alternative minimum tax
22 ("CAMT") under IRC § 55.

DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA

1 Q. WHICH, IF ANY, OF THESE IRA PROVISIONS IMPACT DUKE
2 ENERGY INDIANA IN THIS PROCEEDING?

3 A. As I will explain, Duke Energy Indiana projects current CAMT of approximately
4 \$34 million, \$32 million, and \$98 million in 2023, 2024, and 2025, respectively,
5 offset by CAMT deferred tax assets of the same amounts.

6 IV. CORPORATE ALTERNATIVE MINIMUM TAX

7 Q. PLEASE DESCRIBE THE CORPORATE ALTERNATIVE MINIMUM
8 TAX INCLUDED IN THE IRA.

9 A. The IRA includes a 15% CAMT on the AFSI of an applicable corporation, as
10 defined under IRC § 59. An applicable corporation is liable for the CAMT to the
11 extent that its “tentative minimum tax” exceeds its regular US federal income tax
12 liability. The CAMT will apply to tax years beginning after December 31, 2022.
13 IRC Section 56A, also added as part of the IRA, defines AFSI as the taxpayer’s
14 net income or loss reported in the taxpayer’s applicable financial statement — as
15 defined in IRC Section 451(b)(3) — with adjustments for certain items. If a
16 taxpayer’s financial results are reported on the applicable financial statement for a
17 group of entities, the consolidated financial statement will be treated as the
18 taxpayer's applicable financial statement. Additionally, AFSI under the CAMT
19 framework is adjusted for certain items, including the difference between the
20 depreciation expense used for financial reporting purposes and depreciation
21 expense used for income tax purposes.

DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA

1 The IRA also adjusts the rules in IRC § 53 to provide a minimum tax credit for
2 applicable corporations. Under modified IRC § 53, the net minimum tax (i.e., the
3 tax imposed by IRC § 55) for all prior tax years beginning after 2022 can
4 generally be carried forward and utilized as a credit against the taxpayer's regular
5 tax liability.

6 **Q. PLEASE DESCRIBE THE RELEVANT GUIDANCE RELEASED**
7 **RELATED TO THE CAMT.**

8 A. In Notice 2023-7, the IRS clarified that the AFSI used to determine whether an
9 applicable corporation is liable for the CAMT should be adjusted to exclude
10 proceeds from certain credits, including those described under IRC § 6418 related
11 to the transfer of an eligible credit. Additionally, the guidance clarifies that
12 consolidated groups are treated as a single entity for AFSI purposes.

13 In Notice 2023-64, the definition of audited financial statements provided
14 in IRC § 451(b)(3) and underlying regulations is expanded to include certain
15 unaudited external financial statements and a taxpayer's federal income tax return,
16 which confirms that every taxpayer is intended to have an audited financial
17 statement for CAMT purposes and, therefore, have AFSI. Also included in Notice
18 2023-64 is the Tax Depreciation Section 481(a) Adjustment rule, which would
19 reduce AFSI if a taxpayer has a favorable (i.e., negative) IRC § 481(a) adjustment
20 for depreciation of IRC § 168 property.

**DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA**

1 The forthcoming proposed regulations are anticipated to be effective for
2 tax years beginning on or after January 1, 2024. Taxpayers may rely on the
3 interim guidance provided for any tax year that begins before January 1, 2024.

4 **Q. DOES THE CAMT AFFECT TOTAL INCOME TAX EXPENSE FOR**
5 **REGULATORY PURPOSES?**

6 A. No. The CAMT has no impact on the total income tax expense that is recorded
7 and recovered for regulatory purposes. The effect of the CAMT is to reduce the
8 amount of deferred income tax expense and to increase the amount of current
9 income tax expense. As such, the effect of being subject to the CAMT is to reduce
10 the total deferred income taxes that are reflected in Duke Energy Indiana's capital
11 structure.

12 **Q. PLEASE PROVIDE AN EXAMPLE OF AN AFSI CALCULATION.**

13 A. Table 1, below, shows an example of how the AFSI is calculated.

14 **Table 1: AFSI Calculation**

Description	Amount
Pretax Book Income	\$ 1,000
Less: Federal Income Tax Expense	(210)
Financial Statement Income	790
Adjustments:	
Add: Federal Income Tax Expense	210
Add: Book Depreciation	100
Deduct: Tax Depreciation	(600)
Total Net Adjustments	(290)
Adjusted Financial Statement Income (AFSI)	<u><u>\$ 500</u></u>

DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA

1 In this example, financial statement income is \$790. Adjustments to financial
2 statement income include additions of federal income tax expense of \$210, book
3 depreciation of \$100, and a deduction of \$600 for tax depreciation for a net
4 adjustment to financial statement income of \$(290). AFSI of \$500 is derived by
5 reducing financial statement income of \$790 by net adjustments of \$290.

6 **Q. PLEASE EXPLAIN THE DIFFERENCE BETWEEN AFSI AND**
7 **REGULAR TAXABLE INCOME.**

8 A. AFSI has limited adjustments for the differences between the recognition of
9 income and expense for financial statement purposes and CAMT purposes. In
10 contrast, the calculation of income for regular tax incorporates many differences
11 in the recognition of income and expense. The table below is a comparison of the
12 differences in the calculation of AFSI and the calculation of regular taxable
13 income.

DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA1 **Table 2: Calculation Differences between AFSI and Taxable Income**

Description	AFSI	Taxable Income
Pretax Book Income	\$ 1,000	\$ 1,000
Less: Federal Income Tax Expense	(210)	(210)
Financial Statement Income	790	790
Adjustments:		
Add: Federal Income Tax Expense	210	210
Add: Book Depreciation	100	100
Deduct: Tax Depreciation	(600)	(600)
Add: Book/Tax Differences	-	40
Deduct: Book/Tax Differences	-	(240)
Total Net Adjustments	(290)	(490)
AFSI / Taxable Income	<u>\$ 500</u>	<u>\$ 300</u>

2 In this illustrative comparison, taxable income for regular tax includes
3 adjustments of \$40 (addition) and \$240 (deduction) for various book-tax
4 differences not included in the calculation of AFSI. Common examples of these
5 timing differences include cost of removal, mixed service costs, and bad debt.

6 **Q. WHAT TAX RATES APPLY TO AFSI AND REGULAR TAX?**

7 A. The statutory tax rate applied to taxable income is 21%. The calculation of CAMT
8 applies a 15% tax rate to AFSI.

9 **Q. PLEASE GIVE AN EXAMPLE OF THE CALCULATION OF CAMT.**

10 A. The CAMT is the excess of the CAMT tentative tax over the regular 21% income
11 tax liability. The table below is an illustrative CAMT tax calculation.

**DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA**

1

Table 3: CAMT Tax Calculation

Description	Amount
AFSI	\$ 500
CAMT Rate	15%
CAMT Tentative Tax	75
Regular Taxable Income	300
Regular Tax Rate	21%
Regular Income Tax	63
CAMT	<u>\$ 12</u>

2

3

4

5

6

7

8

9

10 **Q.**

**PLEASE DESCRIBE HOW THE CAMT CREDIT IS APPLIED TO
FUTURE INCOME TAX LIABILITIES.**

11

12 **A.**

The CAMT paid in prior years can be used as a tax credit against future income tax liabilities to the extent an income tax liability exceeds the CAMT tentative tax in a tax year. In the illustration in Table 4, below, the taxpayer has a CAMT tentative tax of \$75 and regular tax of \$84 in Year 2. Because the CAMT tentative

13

14

15

**DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA**

1 tax does not exceed the regular tax, there is no CAMT due in Year 2. In Year 1,
 2 the taxpayer paid CAMT of \$12 and is eligible to claim a CAMT credit against
 3 regular tax liabilities in future years to the extent its regular tax liability exceeds
 4 its CAMT tentative tax in a given year. In Year 2, the regular tax liability of (\$84)
 5 exceeds the CAMT tentative tax liability (\$75) by \$9. The CAMT credit available
 6 to offset the Year 2 regular income tax liability is \$9. In Year 2, the taxpayer's
 7 total tax liability is \$75 (\$84 regular tax + \$0 CAMT - \$9 CAMT credit). After
 8 utilization of the credit, the CAMT carryforward is \$3 (\$12 CAMT in year 1 less
 9 \$9 utilization in Year 2.)

10 **Table 4: CAMT Carryforward Utilization**

Description	Year 1	Year 2
AFSI	\$ 500	\$ 500
CAMT Rate	15%	15%
CAMT Tentative Tax	75	75
Regular Taxable Income	300	400
Regular Tax Rate	21%	21%
Regular Income Tax	63	84
CAMT	12	-
Tax Before CAMT Credit	75	84
Less: CAMT Credit	-	9
Net Tax Due	\$ 75	\$ 75

11 **Q. IS DUKE ENERGY INDIANA AN APPLICABLE CORPORATION FOR**
 12 **PURPOSES OF THE CAMT?**

13 A. Yes.

DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA

1 **Q. IS THE COMPANY CURRENTLY SUBJECT TO THE CAMT?**

2 A. Yes. Based on the statutory language included in the IRA and interim guidance
3 issued, Duke Energy Indiana is subject to the CAMT beginning in 2023.

4 **Q. DOES THE COMPANY EXPECT TO PAY THE CAMT IN 2024?**

5 A. Yes. Based on current guidance, the Company expects to pay the CAMT in 2023,
6 2024 and 2025 and in future years. As referenced earlier in my testimony, Duke
7 Energy Indiana projects current CAMT of approximately \$34 million, \$32
8 million, and \$98 million in 2023, 2024, and 2025, respectively, offset by CAMT
9 deferred tax assets of the same amounts.

10 **Q. HOW HAS THE CAMT BEEN CALCULATED FOR THIS CASE?**

11 A. The CAMT for Duke Energy Indiana was calculated using Duke Energy Indiana
12 jurisdictional amounts in the manner consistent with the examples outlined
13 previously in my testimony. Adjustments to financial statement income were
14 made for depreciation, pension expense, and federal income taxes.

15 **Q. HOW DOES THE COMPANY PROPOSE TO TREAT THE CAMT
16 CARRYFORWARD?**

17 A. As previously stated, the CAMT credit carryforward is an asset and has been
18 included in the cost-free capital calculation in this filing. When the minimum tax
19 is paid, a CAMT credit is generated and can be carried forward indefinitely to
20 offset the future regular income tax liabilities in periods where the regular federal
21 income tax liability exceeds the CAMT liability. The CAMT credit cannot be
22 carried back to previous taxable years. As explained above, the CAMT is a

DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA

1 mechanism that Congress enacted to provide renewable tax incentives, the
2 benefits of which come with the cost of the CAMT. Including the CAMT
3 carryforward in the capital structure is a corollary consequence to the realization
4 of benefits derived from the related IRA tax incentives. This is how the forecasted
5 CAMT in 2023, 2024 and 2025 has been reflected in this case.

6 **V. FEDERAL AND STATE INCOME TAX EXPENSE**

7 **Q. PLEASE EXPLAIN UNDER WHAT BASIC PREMISE THE INCOME**
8 **TAX CALCULATIONS WERE MADE?**

9 A. The income tax calculations were made under the provisions of the Internal
10 Revenue Code ("IRC") of 1986, as amended, and the Indiana Administrative
11 Code.

12 **Q. WHAT TAX RATE DID THE COMPANY USE TO CALCULATE ITS**
13 **BASE AND TEST PERIOD FEDERAL INCOME TAX EXPENSES?**

14 A. The Company used the statutory federal corporate income tax rate of 21% for
15 both the base period and forecasted period.

16 **Q. WHAT TAX RATE DID THE COMPANY USE TO CALCULATE ITS**
17 **BASE AND TEST PERIOD STATE INCOME TAX EXPENSE?**

18 A. The Company used the composite statutory Indiana corporate income tax rate of
19 4.9% for current tax and 4.9% for deferred tax for both the base period and for the
20 forecast period.

21 **Q. WHAT IS THE COMBINED FEDERAL AND STATE STATUTORY**
22 **INCOME TAX RATE APPLICABLE DURING THE TEST PERIOD?**

DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA

1 A. The combined federal statutory and state statutory income tax rate for Duke
2 Energy Indiana in effect for both the base period and the forecasted period is
3 24.871%. State income taxes are deductible in computing the federal tax liability
4 and this deduction is considered in computing the overall effective tax liability.

5 **Q. WHAT LEVEL OF INCOME TAX EXPENSE SHOULD BE UTILIZED IN**
6 **ESTABLISHING RATES FOR DUKE ENERGY INDIANA?**

7 A. The level of income tax expense charged to utility operations (after reflecting *pro*
8 *forma* adjustments) is most appropriate because it reflects the income tax effects
9 of all items affecting operating income. Income tax expense should follow cost
10 responsibility. If an item is included in cost of service and reflected in rates
11 recovered from customers, the income tax effects associated with that item should
12 be included in cost of service.

13 **Q. DID YOU PROVIDE THE TAX GUIDANCE AND RATES APPLICABLE**
14 **TO DUKE ENERGY INDIANA TO COMPANY WITNESS MS. GRAFT**
15 **FOR USE IN CALCULATING ADJUSTED TEST PERIOD INCOME**
16 **TAXES?**

17 A. Yes. I provided this information to Ms. Graft for use in calculating the revenue
18 requirement.

19 **VI. PROPERTY TAX EXPENSE**

20 **Q. HOW DID DUKE ENERGY INDIANA CALCULATE THE PROPERTY**
21 **TAX EXPENSE FOR THE BASE AND FORECASTED TEST PERIODS?**

DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA

1 A. The property tax expense for the base period in Indiana, Ohio, and North Carolina
2 is established based on monthly accrued property tax expenses at the end of the
3 base period, net of true-ups. For Tax Year 2022, the property tax expense was
4 based on actuals, since the forecasted accruals were trueed up after the first
5 installment bills were paid. For the forecasted test periods, the property tax
6 expense is based on forecasted amounts calculated using assessed values, tax
7 rates, and growth rates derived from forecasted property, plant, and equipment
8 (PP&E) balances. This forecasting methodology also applies to the forecasted test
9 periods for property tax expense in Indiana, Ohio, and North Carolina. The
10 testimony of Company witness Ms. Graft explains the calculation of the *pro*
11 *forma* adjusted property tax expense for the Forward-Looking Test Period.

12 **Q. PLEASE EXPLAIN WHY YOU ARE INCLUDING OHIO PROPERTY**
13 **TAX.**

14 A. In Cause No. 42544 (approved December 19, 2002), the Commission approved
15 the purchase of the Madison Generating Station, located in Butler Co., Ohio by
16 PSI Energy (a predecessor to Duke Energy Indiana). Since that time, Duke
17 Energy Indiana has paid Ohio property taxes on this station. Ohio property taxes
18 were also included in the Company's last base rate proceeding.

19 **Q. PLEASE EXPLAIN WHY YOU ARE INCLUDING NORTH CAROLINA**
20 **PROPERTY TAX.**

21 A. Duke Energy Indiana pays property tax in North Carolina because there is
22 computer hardware and software located in Mecklenburg County, North Carolina

DUKE ENERGY INDIANA 2024 BASE RATE CASE
DIRECT TESTIMONY OF JOHN R. PANIZZA

1 (Charlotte) that it owns (on Duke Energy Indiana Books and Records). These
2 assets are related to the Customer Information System. Each Duke Energy
3 regulated entity owns a portion of this system.

4 **VII. CONCLUSION**

5 **Q. HAVE YOU REVIEWED THE INCOME TAX CALCULATION**
6 **INCLUDING THE EFFECTIVE INCOME TAX RATES AND TAXES**
7 **OTHER THAN INCOME TAX AMOUNTS PRESENTED IN THE**
8 **REVENUE REQUIREMENT ATTACHMENTS PREPARED BY**
9 **COMPANY WITNESS MS. GRAFT?**

10 A. Yes.

11 **Q. DID YOU FIND THIS INFORMATION TO BE REASONABLE AND**
12 **ACCURATE?**

13 A. Yes.

14 **Q. DOES THIS CONCLUDE YOUR PREFILED DIRECT TESTIMONY AT**
15 **THIS TIME?**

16 A. Yes, it does.

VERIFICATION

I hereby verify under the penalties of perjury that the foregoing representations are true to the best of my knowledge, information and belief.

Signed: 
John R. Panizza

Dated: April 4, 2024
