(Pursuant to IURC Order in Cause No. 45827 Approved and Effective August 16, 2023.)

3. MONTHLY FIRE PROTECTION SERVICE RATES FOR HYDRANTS AND SPRINKLERS

Available only to users who are located on the utility's distribution mains which are suitable and adequate for supplying the service requested. Service under these rates shall generally consist of stand-by-service for fire emergencies. All water taken through such connections shall be restricted to fire emergencies unless other temporary use shall have been specifically authorized by the Water Superintendent. The Water Department reserves the right to install flow detectors from time to time to see that the service is restricted to fire fighting purposes.

4. RATE FOR TEMPORARY USERS FOR CONSTRUCTION

A temporary construction meter must be installed on all buildings larger than one (1) family dwelling unit at an existing rate structure. The minimum charge for each and any non-metered service under construction shall be sixteen dollars (\$16.00).

Contractors must pay for water used on streets, sewers, buildings, and sidewalks, while under construction. Contractors are to furnish the Water Department with the amount of material to be used before starting construction and, thereupon, an estimation of water to be used shall be made by the Water Department and charged according to the monthly consumption rates. Payment is to be made in advance. The Water Department may require contractors to install a construction meter at the property line or other designated place so that all water can be metered.

5. BULK WATER RATE

Rates per 1,000 gallons as set forth in (1) above – General Metered Rate For A One Month Consumption Period.

6. CHARGE FOR TAPPING THE UTILITY'S MAINS

A tapping fee of \$550 will be required (payable in advance) for the water utility to tap a ¾" or 1" line. All taps over 1" shall be estimated by the Water Utility and this charge shall be paid before the tap is actually made by the Water Utility personnel.

Any contractor other than the water utility will be assessed a fee for making a tap into water utility distribution system based on the following schedule. This fee must be paid in advance and proper approval must be given by the water utility before the tap can actually be made.
