### INDIANA OFFICE OF UTILITY CONSUMER COUNSELOR'S PUBLIC'S EXHIBIT

### NO. 9 - SETTLEMENT TESTIMONY OF OUCC WITNESS MARK H. GROSSKOPF

With the current requirement that all staff work from home, signatures for affirmations are not available at this time.

May 7, 2021

Respectfully submitted, Louise Hitz-Brodley

Lorraine Hitz-Bradley Attorney No. 18006-29

**Deputy Consumer Counselor** 

### SOUTHERN INDIANA GAS AND ELECTRIC COMPANY D/B/A VECTREN ENERGY DELIVERY OF INDIANA, INC. CAUSE NO. 45447 SETTLEMENT TESTIMONY OF OUCC WITNESS MARK H. GROSSKOPF

# I. <u>INTRODUCTION</u>

| 1      | Q: | Please state your name and business address.  |
|--------|----|---|
| 2      | A: | My name is Mark H. Grosskopf, and my business address is 115 W. Washington          |
| 3      |    | Street, Suite 1500 South, Indianapolis, Indiana 46204.                              |
| 4      | Q: | By whom are you employed and in what capacity?                                      |
| 5      | A: | I am employed by the Indiana Office of Utility Consumer Counselor ("OUCC")          |
| 6      |    | as a Senior Utility Analyst.  |
| 7<br>8 | Q: | Are you the same Mark H. Grosskopf who previously filed testimony in this Cause?    |
| 9      | A: | Yes, I am.  |
| 10     | Q: | What is the purpose of your settlement testimony?                                   |
| 11     | A: | My settlement testimony supports a Settlement Agreement ("Agreement")               |
| 12     |    | between the Parties in this Cause: Southern Indiana Gas and Electric Company        |
| 13     |    | d/b/a Vectren Energy Delivery of Indiana, Inc. ("Vectren South" or "Petitioner"),   |
| 14     |    | the Indiana Office of Utility Consumer Counselor ("OUCC"), the Vectren South        |
| 15     |    | Industrial Group ("Industrial Group"), and Direct Energy Business Marketing,        |
| 16     |    | LLC ("Direct Energy"), (collectively, the "Settling Parties"). The Agreement        |
| 17     |    | resolves all issues between the Settling Parties in this Cause. My settlement       |
| 18     |    | testimony focuses on those items in which differences existed between Vectren       |
| 19     |    | South's and the OUCC's cases-in-chief. I discuss the pertinent matters agreed to    |
| 20     |    | in the Agreement, such as the original cost rate base, capital structure and return |

on original cost rate base, depreciation and amortization expense, pro forma operating revenues, and pro forma operation & maintenance ("O&M") expense adjustments. I discuss terms of the Agreement related to Vectren South's future Compliance and System Improvement Adjustment ("CSIA") filings, Universal Service Program ("USP"), Tax Savings Credit Rider ("TSCR"), Energy Efficiency Rider ("EER"), Gas Cost Adjustment ("GCA") mechanism, customer billing, customer deposits, tariff changes, cost allocations, and rate design. My testimony also addresses terms of the Agreement related to the timing and content of phased-in rates resulting from Phase 1 and Phase 2 revenue requirement updates applicable to a future test year in this Cause. The Settling Parties also filed a set of revenue requirement schedules reflecting the terms of the Agreement, designated as Appendix A. Is the Agreement a product of arms-length negotiations between the Settling Parties? Yes. The Agreement represents a compromise reached in the settlement negotiation process, with give and take by all of the Settling Parties. The Settling Parties devoted considerable time and effort to fairly balance Vectren South's

### II. <u>ISSUES RESOLVED IN SETTLEMENT</u>

### A. Rate Base

17

18

Q:

A:

19 Q: What value did the Settling Parties assign to rate base in this Cause?

interests and those of Vectren South's customers.

- 20 A: The Settling Parties agree to an original cost rate base of \$469,327,931. This
- 21 reflects a reduction of \$60,878 to Vectren South's forecasted rate base to remove

| 1        |             | a portion of the Picarro leak detection equipment. The rate base agreed to by the  |
|----------|-------------|--|
| 2        |             | Settling Parties reflects Vectren South's rebuttal position, which is a reasonable   |
| 3        |             | forecast of utility plant-in-service at the end of 2021. (Agreement at 6.) In  |
| 4        |             | Vectren's South's Phase 2 rate update filing, rate base will be the lesser of (i)  |
| 5        |             | \$469,327,931 or (ii) actual rate base as of December 31, 2021. ( <i>Id.</i> at 5.)  |
|          | В. <u>с</u> | Cost of Equity and Capital Structure   |
| 6        | Q:          | What cost of equity did Vectren South and the OUCC propose in this Cause?  |
| 7        | A:          | Vectren South proposed a 10.15% cost of equity, while the OUCC proposed a  |
| 8        |             | 9.20% cost of equity.  |
| 9        | Q:          | What cost of equity have the Settling Parties agreed to in this Cause?   |
| 10       | A:          | The Settling Parties agree to a 9.70% cost of equity. (Id. at 6.) The OUCC   |
| 11       |             | considers this a fair and reasonable result when combined with other   |
| 12       |             | considerations and compromises made in this Agreement.   |
| 13       | Q:          | Have the Settling Parties agreed to changes in the capital structure?  |
| 14       | A:          | Yes. The Settling Parties also agree to an increase to cost-free capital of \$1.979  |
| 15       |             | million to reflect non-interest-bearing customer deposits, as accepted by Vectren  |
| 16       |             | South on rebuttal. (Id.) In Vectren South's Phase 2 filing, the capital structure will   |
| 17       |             | be updated to reflect actual capitalization as of December 31, 2021. (Id. at 5.),  |
| 18<br>19 | Q:          | What fair return resulted from the settled capital structure and weighted cost of capital when applied to the settled rate base? |
| 20       | A:          | The Settling Parties stipulate and agree the weighted cost of capital resulting from   |
| 21       |             | the settled capital structure times the stipulated net original cost rate base yields a  |
| 22       |             | fair return of no more than \$27,127,154, yielding an overall return for earnings  |
| 23       |             | test purposes of 5.78%. (Id. at 7.)  |

### C. Depreciation Expense

1

11

14

15

16

17

18

19

20

#### Q: Do the Settling Parties agree on new depreciation rates?

2 A: Yes. Vectren South presented a depreciation study with its proposal for new 3 depreciation rates. OUCC Witness David J. Garrett proposed alternative depreciation rates based on use of the Average Life Group ("ALG") methodology 4 5 and revisions to service lives as presented in Public's Exhibit No. 6, Attachment 6 DJG-3. The Settling Parties agree and stipulate the depreciation accrual rates 7 recommended by Mr. Garrett should be approved and used in the determination of 8 net plant in service values for calculation of Phase 1 and Phase 2 rates. 9 (Agreement at 7.) The depreciation accrual rates agreed to by the Settling Parties 10 will result in an increase to the amortization period for the CSIA Program Expense Amortization to 49 years and an increase to the amortization period for 12 the Bare Steel Cast Iron Program Expense Amortization to 37 years. (*Id.*)

### **D.** Amortization Expense

#### 13 Q: Do the Settling Parties agree on an amortization expense adjustment?

A: Yes. The Settling Parties agree to amortize the regulatory assets for COVIDrelated expenses, investment related IT expenses, and rate case expense over six years rather than five years as originally proposed by Vectren South. (Id.) In addition, Vectren South agrees to reduce total rate case expense from \$1,650,000 to \$1,300,000, reflecting a reduction to annual amortized expense of \$113,333 from that proposed in Vectren South's case-in-chief. If Vectren South files a general rate case before expiration of the six-year amortization period, any 1 unamortized portion will be rolled into Vectren South's next rate case. If not 2 already addressed by a base rate case order before expiration of the six-year 3 amortization period, Vectren South agrees to file a revised tariff to remove the 4 annual amortization amount from base rates unless a new general rate case 5 petition is pending at that time. (*Id.* at 8.)

### E. Pro Forma Revenues

6

8

9

10

11

12

13

15

7 O: What revenue adjustments do the Settling Parties agree to in this Cause?

A: The Settling Parties agree Vectren South's pro forma revenues should be adjusted to include an increase of \$7,819 to FERC Account 487 (Forfeited Discounts) and an increase of \$46,749 to FERC Account 495 (Other Revenue) as proposed by the OUCC in its case-in-chief. The Agreement results in total pro forma revenues as of the end of the test year of \$126,981,568. (Agreement at 8.)

### F. O&M Expenses

14 O: Please explain the results of the settlement negotiations regarding O&M expense adjustments.

16 The Settling Parties negotiated compromises to various O&M expense A: 17 adjustments resulting in a reduction to Vectren South's total forecasted level of 18 O&M expense presented in its case-in-chief of (\$1,509,296). (Id.) The Settling 19 Parties further agree to use Vectren South's methodology to calculate other flow-20 through adjustments to bad debt expense, property tax, IURC fee, utility receipts 21 tax, and income tax resulting from the changes made in the revenue requirement. 22 (*Id*.)

### **G.** Future CSIA Filings

14

15

16

17

18

19

20

Q: Have the Settling Parties reached agreement on the treatment of incremental O&M expenses in future CSIA filings?

A: Yes. Since O&M expenses for compliance activities recovered in prior CSIA filings were factored into base rates in the current Cause, the Settling Parties agree that in future semi-annual CSIA filings related to the Compliance Component of the CSIA mechanism, Vectren South will identify incremental O&M expenses incurred that are not included in base rates. (Agreement at 9.) For purposes of the Agreement, "incremental O&M expenses" to be included in such filings means incremental O&M expenses that are the result of a new requirement resulting from a regulation or enhancement of a regulation requiring compliance beginning January 1, 2022 or later, or other incremental O&M expenses that Vectren South demonstrates were not included in the test year forecast in this Cause. Vectren South agrees it will bear the burden of proof in future CSIA proceedings where recovery of incremental O&M expenses is sought. Vectren South will segregate, or track separately, costs included in incremental O&M expense through its work order management system. Vectren South further agrees to supply detailed testimony in future CSIA filings regarding any new compliance requirement for which incremental O&M expense recovery is sought, and to demonstrate how such incremental O&M expense is not included in base rates. (*Id*.)

Q: Have the Settling Parties reached agreement on the allocation of cost recovery in future CSIA filings?

A:

Yes. The Settling Parties agree the allocation of cost recovery for the TDSIC Component of Vectren South's CSIA mechanism will be based on total revenues and cost recovery allocation for the Compliance Component will be based on nongas revenues. (*Id.* at 10.) The Settling Parties further agree the allocation percentages will be by rate class and will not be broken down further by storage, transmission, and distribution. The stipulated allocation percentages for each CSIA component will be used for all TDSIC or Compliance Projects included in Vectren South's next CSIA as well as TDSIC or Compliance Projects added after the CSIA has been approved. (*Id.*) The allocation percentages are based upon the stipulated total revenues and total margins as shown on the following tables:

| TDSIC Allocation Factors (Based on Total Revenue) |                  |                  |                  |            |

# H. Universal Service Program ("USP")

| 1        | Q: | Have the Settling Parties agreed to an extension of Vectren South's USP?            |
|----------|----|---|
| 2        | A: | Yes, the Settling Parties agree to extend the USP under the following conditions.   |
| 3        |    | Each of the Settling Parties shall have the right to initiate a petition to modify, |
| 4        |    | review, or terminate the USP. If the USP is terminated, Vectren South agrees to     |
| 5        |    | file a revised tariff to reflect the impact on the USF Rider. Also, the Settling    |
| 6        |    | Parties agree Vectren South's shareholder contribution to the USP shall remain at   |
| 7        |    | 30% of program costs and any administrative costs will not be counted towards       |
| 8        |    | that amount. (Agreement at 10.)   |
| 9        | I. | Tax Savings Credit Rider  |
| 10<br>11 | Q: | Have the Settling Parties reached agreement on Vectren South's proposed TSCR?       |
| 12       | A: | Yes. The Settling Parties agree to the proposed TSCR mechanism as presented in      |
| 13       |    | Vectren South's case-in-chief. Vectren South agrees to provide the Excel            |
| 14       |    | spreadsheets used to create the schedules in each TSCR filing. (Id.)                |
| 15       | J. | Energy Efficiency Rider   |
| 16       | Q: | Have the Settling Parties agreed to an extension of Vectren South's EER?            |
| 17       | A: | Yes. The Settling Parties agree to the extension of Vectren South's energy          |
| 18       |    | efficiency programs, and the Energy Efficiency Funding Component ("EEFC")           |
| 19       |    | and Sales Reconciliation Component ("SRC") of the EER through 2021, and             |
| 20       |    | continuation of the EEFC through 2025 and SRC through issuance of a Final           |
| 21       |    | Order in the next general rate case. (Agreement at 11.) This is consistent with     |
| 22       |    | Vectren South's position in its case-in-chief.                                      |

### K. Gas Cost Adjustment Mechanism

A:

Q: Have the Settling Parties reached agreement on percentages of bad debt and unaccounted-for-gas ("UAFG") to be used in Vectren South's GCA mechanism?

Yes. The Settling Parties agree to use 0.37% as the bad debt percentage to be collected through the GCA. The Settling Parties also agree to lower the maximum annual UAFG percentage from 1.2% to 1.12%. (*Id.*)

### L. Customer Deposits and Billing

# Q: Does the Agreement address the OUCC's recommendations on customer deposits and billing?

Yes. As proposed by the OUCC in its case-in-chief, Vectren South agrees to review customer deposits on an annual basis to make sure customers who meet the criteria set forth in 170 Ind. Admin. Code 5-1-15(g) receive deposit refunds in a timely manner. (Agreement at 8.) Vectren South also agrees to revise Section 18.H of Tariff Sheet No. 57 to remove the statement that "[c]redit balances less than \$10.00 will not be refunded to Customer unless so requested." Vectren South agrees inactive accounts with customer deposits unclaimed after one year shall be presumed abandoned and treated in accordance with Ind. Code ch. 32-34-1. (*Id.* at 8-9.)

To further customer bill transparency, Vectren South agrees to include a notation on each customer bill that customers may call its customer service representatives if they want an itemized breakdown of the charges included on their bill. This notation will be on every bill going forward. (Agreement at 11.)

### M. Tariff Changes

1

11

| 2 | Λ. | What are the tariff changes the Sattling Darties have agreed upon? |
|---|----|--|
| _ | Ų. | What are the tariff changes the Settling Parties have agreed upon? |

3 A: The Settling Parties agree to the proposed tariff changes in Vectren South's case-4 in-chief. Vectren South agrees to lower the volumetric threshold to qualify for 5 Rate 145 to 2,500 dekatherms annually, provided that a monthly telemetry charge 6 will be added for customers who use between 2,500 and 5,000 dekatherms 7 annually and choose to transport. (Id.) The telemetry charge will be a pass-8 through charge of Vectren South's costs for wireless/cellular service associated 9 with reading meters for such customers. Vectren South will file a revised tariff 10 reflecting this change in its compliance filing. (*Id.*)

### N. Cost of Service/Cost Allocations

- 12 Q: Have the Settling Parties reached agreement on the overall allocation of the revenue increase to the customer rate classes?
- A: Yes. The Settling Parties agree to use Vectren South's cost of service study, modified to reflect the following agreed-upon revenue allocations. Rate 110 and Rates 120/125 will each receive an equal allocation of the revenue increase, set at 19.72%. (*Id.* at 12.) The revenue increase for Rate 145 and Rate 160 will be set at 12.94% and 10.95%, respectively, and the revenue increase for Rate 170 will be set at 25.99%. (*Id.*) The allocation of the stipulated revenue increase is shown in more detail under Cost of Service/Cost Allocation, Section 15, of the Agreement.

### O. Rate Design

17

18

19

20

21

22

23

2 Q: Have the Settling Parties reached agreement on monthly customer service 3 charges? 4 A: Yes. The Settling Parties agree to the customer service charges proposed by the 5 OUCC in its case-in-chief. Rate 110 will have a monthly customer service charge 6 of \$16.50, with the CSIA charge reset after a Final Order of the Commission in 7 this Cause. (Agreement at 12.) Rates 120/125 will have a monthly service charge 8 of \$32.00 for Group 1, \$63.00 for Group 2, and \$125.00 for Group 3. The 9 monthly service charge for Rate 145 will be \$125. The service charge for Rate 10 160 will be \$800.00 and Rate 170 will be \$1,600.00, as initially proposed by

### P. Phase-in Rate Updates

### 13 Q: When are new rates expected to be effective in this Cause?

Vectren South and accepted by the OUCC. (*Id.*)

A: Because of the future test year utilized in this Cause, there will be two phases to Vectren South's rate increase, referred to as Phase 1 and Phase 2. The Settling Parties agree to the following procedures for implementing Vectren South's rate increases.

Following issuance of a Final Order in this Cause approving this Settlement, Phase 1 rates will go into effect on an interim subject to refund basis pending a 60-day review process as described in Vectren South's case-in-chief. Phase 1 will be based on the agreed revenue requirement as adjusted to reflect the original cost of Vectren South's net utility plant in service, actual capital structure, and associated depreciation expense as of June 30, 2021. (*Id.* at 4-5.)

The process for the Phase 2 rate adjustment is described in Vectren South's case-in-chief, except the Phase 2 update will be limited to rate base, capital structure, depreciation expense, and taxes. (Agreement at 5.) Revenues and O&M expenses will not be updated in Phase 2 as originally contemplated by Vectren South. The Phase 2 update will be based on the agreed revenue requirement as of December 31, 2021, as adjusted, if necessary, to reflect the lesser of (i) Vectren South's forecasted test-year-end rate base as updated in rebuttal evidence (\$469,327,931), or (ii) Vectren South's rate base reflecting certified test-year-end net plant in service as of December 31, 2021. (*Id.*) Phase 2 rates will go into effect on an interim subject to refund basis pending a 60-day review process as described in Vectren South's case-in-chief. Appendix A attached to the Settlement Agreement includes schedules supporting the calculation of Vectren South's revenue requirement as of December 31, 2021. (*Id.*)

### III. PUBLIC INTEREST

### 15 Q: Is the Agreement in the public interest?

A:

Yes. The Settling Parties each made material concessions when they entered into the proposed Agreement. The resulting Agreement includes a residential customer rate that lessens the rate increase impact and prevents rate shock to captive ratepayers. The terms of the Agreement demonstrate the give and take of settlement negotiations in resolving multiple contested issues in a manner acceptable to all Settling Parties. The Agreement also reduces the risk and

- 1 expense of litigation of multiple issues. Therefore, the OUCC considers the
- 2 Agreement to be in the public interest.

# IV. <u>CONCLUSION</u>

- 3 Q: Does the OUCC recommend approval of the Agreement?
- 4 A: Yes. The Settling Parties' testimony and exhibits provide evidence to support the
- 5 Agreement, and the OUCC recommends the Commission approve the Agreement.
- 6 Q: Does this conclude your settlement testimony?
- 7 A: Yes.
