VERIFIED SETTLEMENT TESTIMONY OF THEODORE SOMMER

1	Q.	Please state your name, business address, and title.
2	Α.	My name is Ted Sommer. I am a Partner with the Firm of London Witte Group,
3		LLC. My business address is 1776 North Meridian, Suite 500, Indianapolis,
4		Indiana 46202
5	Q.	Are you the same Ted Sommer that previously filed testimony in this Cause?
6	A.	Yes I am.
7	Q.	What is the purpose of your Settlement Testimony on behalf of Indiana
8		Municipal Utility Group ("IMUG")?
9	A.	I express support for approval of the Settlement. IMUG focused on municipal
10		street and traffic light issues in this case, with emphasis on the mass retrofit of
11		LED street lights. I would like to address the portion of the Settlement regarding
12		LED street light rates.
13	Q.	What do you wish to say regarding the Settlement Agreement?
14	A.	The NIPSCO LED mass retrofit program that was originally approved by the
15		Commission in Cause No. 44370 was good news for municipalities in northern
16		Indiana. However, for reasons other than street lighting, that Order was revised
17		after its appeal. The LED mass retrofit program has been again proposed by
18		IMUG in this rate case and is also proposed in NIPSCO's pending TDSIC Cause
19		No.44733. The interest of municipalities in NIPSCO's service area in a mass
20		retrofit streetlight program has continued to grow. In response to NIPSCO's

recent Request for Information to all municipalities with NIPSCO owned street lights, 40 municipalities responded accounting for approximately 24,000 of the approximate 40,000 streetlights owned by NIPSCO. IMUG's eight municipal members remain keenly interested in participating in a mass LED street light retrofit program and IMUG is willing to help any of the municipalities in NIPSCO's service area who are interested in participating in a mass LED retrofit program.

The significant modernization, economic, reliability, safety, and social benefits that an LED street light mass retrofit program offers are without question and are not opposed by any testimony in this Cause. LEDs offer the opportunity to economically replace obsolete HPS street lights that are fully or nearly fully depreciated with new technology that last five times longer than HPS lights, provide 50% to 60% energy savings, provide better illumination, lightweight easy installation, and less costly maintenance. The modernization to NIPSCO's distribution system, the improved visibility for vehicular and pedestrian traffic, the increased public safety, the crime reducing benefits, the economic development benefits in commercial areas, the revitalization and urban renewal benefits in challenged or blighted neighborhoods from mass retrofit LED street lights have been well documented by Dr. Kramer and not questioned by any Party's evidence. The public interest of Indiana is advanced by an LED mass retrofit program, and this Settlement Agreement promotes that outcome.

Section 17 of the Settlement Agreement provides the framework by which these broad customer, public convenience, and utility benefits can be brought to

1		fruition with the finalization of NIPSCO's pending TDSIC. It is my greatest hope
2		that the Commission will, in accepting this Settlement Agreement, embrace
3		IMUG's and NIPSCO's pursuit of a mass LED street light retrofit program and
4		approve that program in this Cause and its finalization in NIPSCO's subsequent
5	ada da	TDSIC.
6	Q.	Does Section 17 of the Settlement Agreement provide LED street light
7		benefits to those municipalities that may not want to participate, for
8		whatever reason, in a mass LED retrofit?
9	A.	Yes, it does. Section 17 of the Settlement Agreement reduces the rate for those
10		who choose to have LED streetlights installed one or a few at a time rather than
11		participate in the mass retrofit program.
12	Q.	Does the Settlement Agreement also benefit those who pay for current, old
13		technology street lights?
14	A.	Yes. The increase to street lights proposed by NIPSCO is reduced in the
15		Settlement Agreement from 7.43% to 6.27%.
16	Q.	Do you have any final comments?
17	A.	For the benefit of Indiana municipalities, for the benefit of all the Hoosiers in
18		NIPSCO's service territory, for the benefit of NIPSCO's operations, I encourage
19		the Commission to embrace LED street lights, their mass retrofit, and the
20		resulting low cost mass retrofit LED street light rates it will yield by approving
21		the proposed Settlement Agreement.
22	Q.	Does that conclude your Settlement testimony?
23	Δ	Ves at this time

VERIFICATION

The undersigned, Theodor Sommer, under penalty of perjury, affirms that he has read the foregoing Settlement Testimony, and that the statements and attached exhibits therein contained are true to the best of his knowledge, information, and belief.

Theodore Sommer
