United Religious Community of St. Joseph County
501 N. Main Street
South Bend, IN 46601
urc@urcsjc.org
574-282-2397

October 2, 2017

Over 2 years:

The United Religious Community (URC) paid over \$83,000 to Indiana Michigan/AEP on behalf of low-income residents of St. Joseph County, out of a total of \$141,000 in expenditures¹

Average assistance is just over \$100, but that's capped by policy

The largest proportion of URC philanthropic donations are paid to the Indiana Michigan Power

Funds for relief are significantly down this year

Any raise in rates is expected to have a seriously difficult time on low-income clients, which will translate to more difficulties finding assistance

URC respectfully asks the IURC to have these concerns in mind as it considers rate increases

John Pinter
574-282-2397 x3
jpinter@urcsjc.org

¹ Other major recipients were Mishawaka Utilities, \$18,000, and NIPSCO, \$37,000)

Indiana Access to Public Records Act (Indiana Code 5-14-3-1, *et seq.*).

My name is Reynaldo Hernandez. I live here in South Bend. I wish to comment against the proposed I & M electric rate increase. I speak also on behalf of my wife, GlendaRae Hernandez.

This proposed increase is going to hit hard on seniors and others on fixed incomes, such as myself. Yes, the cost of everything is going up, and according to this morning's paper rates have increased only 3% over the last 10 years, adjusted for inflation. The proposed increase well exceeds that rate of increase. If there is any rate increase at all, it should either be adjusted for seniors or otherwise slimmed to ease the impact on all. Such provisions are made for real estate taxes, and should be made for electric rates as well.

The increase would be more tolerable if I & M were acting more assertively to convert from reliance on coal to wind and solar. Yes, a new solar plant is now going up to our immediate west, and I have been able to modify my electric supply so that half of it comes from solar sources without increasing my rate. The downside is that ~~when~~ last year I & M fought hard against the Clean Power Plan and "updated" their Rockport plant instead of replacing it with solar at similar, even less, cost. And don't give me that crap about saving Indiana coal jobs. Rockport burns out of state coal. I highly resent having to pay more for keeping us in prison to the past.

The term "public utility" implies that it exists to serve, not exploit. The proposed rate increase exploits.

In sum, I & M needs to be more responsible in respecting both the financial limitations of lower income Hoosiers and an environment badly in need of reducing carbon emissions. In light of both, please reject or limit the increase.

Torres attached

Per the 2014 ALICE Reoport:

Across Indiana, 37% of households are struggling to support themselves; to afford the life's basic needs.

Underscoring the fact that many jobs in Indiana do not pay enough to allow families to afford the most basic household budget.

The core issue is that these jobs do not pay enough to afford the basics of housing, utilities, child care, food, healthcare and transportation.

At the same time, the cost of basic household necessities continues to rise.

These households are forced to make difficult choices such as skipping preventative health care, healthy food, or car insurance. These "savings" threaten their health, safety and future.

Per the South Bend Tribune: on 11/11/14:

% of Struggling Households in:

Portage Twp. 56%,
in Clay Twp. 33%,
in South Bend as a whole 45%.
In Penn Twp. 33%,
in Mishawakaas a whole 40%.

Their research also suggested you would need to make \$23.00 per hour to afford a family.

Most of our heads of households make on average 7.25-10.00 per hour.

Female-headed households with children account for 25 percent of Indiana families with children but 54% of those families below the 200% FPL.

Even if the family isn't a single parent household (ie: 2 parents (x \$10.00) is only \$20.00 per hour and falls short).

I OFFER THE FOLLOWING WRITTEN TESTIMONY:

(You may make both written and oral comments.)

I urge you to disallow the proposed I&M
rate increase, especially the regressive increase
in the flat rate.

You may continue your comments on the back of this sheet or attach them.

I OFFER THE FOLLOWING WRITTEN TESTIMONY:

(You may make both written and oral comments.)

Infrastructure needs which have been let slide for years should not be financed by ratepayers who do not own it. It is a monopoly. We have no choice.
Shareholders' dividends should be reduced so they contribute.
CEO and managers should forgo raises during the improvements.
Once the improvements have been made, will the rate go down?
I recommend that this proposal be rejected.

You may continue your comments on the back of this sheet or attach them.

I OFFER THE FOLLOWING WRITTEN TESTIMONY:

(You may make both written and oral comments.)

first I&M lobbied our legislature to remove
net metering for renewables saying ^(untruthfully) that those
customers were unfairly shifting costs to others. Now
I&M wants to shift costs for its poor decisions & dinosaur
ideology to consumers. 147% increase of fixed costs is too
much.
25% rate increase is too much.

I OFFER THE FOLLOWING WRITTEN TESTIMONY:

(You may make both written and oral comments.)

① As an I&M customer, I specifically oppose the increase in the fixed charge because it does not incentivize behavior that decreases the amount of electricity consumed - energy efficiency, distributed energy like solar.

You may continue your comments on the back of this sheet or attach them.

- ② I+M has argued that it is "fair" for customers to pay more of the T+D fixed costs. Is it truly fair for everyone to pay an equal amount, if many people earn or live on much smaller incomes?
- ③ Why not create an inverted Block rate that increases the per kWh rate at higher levels of consumption?
