Case Number: water rate hike for Anderson,in  
Comments: I'm in favor for the rate hike.  
Out of date water supply lines &  
ss sewer lines need to be updated.  
They have been neglected for far  
to long.

Comments: Regarding this huge water rate increase to the public of Anderson, IN. Cutting the amount and delving it out over a longer period is the correct way to deliver this proposal. In my opinion, doing maintenance on the system is correct. But most every home in Anderson that I'm aware of has plenty of pressure. Why is delivering water at a higher pressure rate suppose to convince me to agree with this plan? I believe if this large increase is to be placed on the citizens of Anderson, it should be over a ten year period or more. Better maintenance should be kept by the water department, with scheduled zoning area each year to have a budgeted amount to fix the old system to keep such enormous requests off the citizens. There are far too many low income, retired and disabled citizens living in our city. People will begin having their water turned off because there simply isn't enough money in their budgets now. So the energy assistance programs, which are already taxed out, will have to turn more and more people away. In closing, our water delivery system needs updated, it is up to the planning comity to come up with a feasible plan for the citizens to live with. Do we really need a brand new pump station out on Hartmen road, or could that money be used in a wiser way?

Thank you for your time on this problem,  
Paul Bolinger

**Subject:** Anderson water utility needs a rate CUT not an increase!

I am finding out too late that there was a public hearing about the greedy mayor Smith and stupid city council and the proposed 47% rate increase. These spineless fools can't govern their way out of a paper bag, much less manage a city. They host annual taxpayer-funded giveaways to companies like Nestle and any other widget maker coming to town with their hand out asking for money. They allowed GM to leave Anderson bankrupt and broke and have no real plan for a successful future for Anderson. Smith and the council are in violation of standard business budget protocols as noted by the latest annual audits conducted by the Indiana State Board of Accounts report of cities and towns for the past 3 years that we know of.

Now they want a 47% increase to fix aging water company infrastructure? I don't doubt that repairs are needed but no one here honestly supports that kind of a rate increase.

People (I hope) are getting smarter. Come election time Smith and his cronies may not have a job anymore.

Jonathan S. Cooksey  
Anderson, IN

**Subject:** ANDERSON WATER RATE INCREASE

**Categories:** Completeted CSD-task

I URGE YOU TO DENY THIS RATE INCREASE , OR AT LEAST LOWER IT DRASTICALLY. WE HAVE AN ADMINISTRATION USING WATER UTILITY NOT RELATED TO WATER UTILITY. A FOUNTAIN \$20,000, 85% OF THE MAYOR'S SALARY. THIS UTILITY FUND SHOULD BE AUDITED EVERY YEAR. ALSO THEY ARE TRYING TO MAKE ANDERSON A BEDROOM COMMUNITY OF INDIANAPOLIS - REALLY? INDIANAPOLIS HAS FISHERS AND NOBLESVILLE . HOW MUCH OF THE WATER UTILITY MONEY IS SPENT ON THE TRIPS TO CHINA FOR ECONOMIC DEVELOPMENT. CHINA IS GOING TO SET UP BUSINESS HERE? THEY SPENT A FORTUNE SETTING UP AUTOMATED UTILITY READINGS THAT I DO NOT TRUST.

ANDERSON HAS A LARGE POPULATION OF RETIRED PEOPLE THAT ARE BEING TAXED BEYOND WHAT WE CAN AFFORD.. OUR COUNTY TAX IS DOUBLE THAT OF DELAWARE & HAMILTON COUNTY.

THE RECENT WATER MAIN BREAK ON CROSS STREET - THE CITY STATED BROADWAY WAS ONE OF THE MOST TRAVELED ROAD - YET IN ANDERSON IT IS IN BAD SHAPE BECAUSE IT IS IN NORTH ANDERSON.

THE CITY IS COMPLETELY IGNORING NORTH ANDERSON YET WE ARE BEING TAXED FOR "IF WE DO IT THEY WILL COME" FOR THE SOUTH END .

PLEASE HELP TO STOP THIS.

THANK YOU.  
JUDY HIGGINS

Oct. 20, 2014

So many, many people were not even aware of the Anderson City's 47% water rate hike over the next 2 years. They had not seen any newspaper article or heard by word of mouth.

So many of the residents are concerned as to how these increases of the money will be used. It is a known fact and has been in the Herald Bulletin (newspaper) that money from the utility fund has been used for salaries.

They have been making this money from us over the years, so why have they not been making the necessary repairs to the City's Water System all along as I have heard from so many persons.

Oh yes, a news man from the Herald Bulletin did state that the State told the Officials to Stop taking money for salaries from the utility funds.

There are so many people struggling now in the City of Anderson, even without lights, water, and gas. I know many looking for help - Churches, Salvation Army, Aspire, Operation Love, Christian Center, etc.

Many persons have commented, will this extra money, increase go to fund the "Mounds Lake Reservoir"?

Please give all consideration to the amount of this Water Rate Increase

Thanking you kindly,

Phyllis Hobbs

**Subject:** Madison county water rates

I do not care if they raise the water rates. The problem I have here in Anderson, Madison Co. is that they charge us from 1/2 to 5/8 more for sewage then the water we use!

I know this was probably a great way to pay for new sewers way back when they were installed. Now as a newer resident to Anderson I was surprised that they charge twice the in take to 5/8 more. Surely the sewer is paid for! When I lived in Muncie they did a bond issue and once the home owner paid it off in semi-annual payments applied to the taxes it was eliminated.

Now the water department in Anderson has to borrow money from the sewage dept? Something isn't right! How come the sewer dept. has a huge surplus and water company can't make ends meet? looks like the water and sewer bill should be same?!!!

Something needs to be re-looked at in the way they charge sewage!!!!

We did not buy back in Northern Muncie because they have a sewer rate for those additions of 80.00 to 100.00 and almost all of them are on wells. They/we even had to pay 20.00 a month when the sewer was just a drawing on paper since they borrowed money and the public had to pay the interest? Something smelled there! That was a business expense not a public bill. We paid for several years; sold our house and never used the sewer we were paying for!???

WE WISH TO OBJECT TO THE PROPOSED WATER RATE INCREASE FOR ANDERSON CITY UTILITIES A 47% INCREASE IS REDICULOUS ESPECIALLY WHEN THERE IS SO MUCH WASTE AND NOT PROPER CARE OF THE FACILITIES PLUS USING THE RATE HOLDERS PROFIT AND MONEY TO SUBSIDISE ELECTED OFFICIALS SALARIES WHICH IS AGAINST THE LAW AND THE STATE OF IN. WILL NOT ENFORCE JUST KEEP WRITING THEM UP IN THIER AUDITS IT IS JUST REDICULOUS .

Anderson, In 46016  
Aug. 6, 2014

Dear Tom Brewer.

I am writing in regards to the water rate increase. I am asking that it not be approved. I am on fixed income of \$1000.00 a month. I cannot pay all my bills every month before running out of money. My son & I have to eat peanut butter & jelly for the last 2 to 2½ weeks of every month because the bills are more than our income. We can't afford another raise on anything because we don't get a raise on our checks to pay them.

According to the paper, the money isn't going to be used in Anderson so why do we have to pay more for our water.

Thank you  
Phyllis Phillips

Indianapolis, IN 46204

Ref: IURC Cause No. 44510

I am writing your office to express my extreme opposition to the proposed rate increase for water utility from the City of Anderson, Indiana. An approval of any increase in water delivery cost is asinine. The same Administration and City Council petitioned for a base rate increase in 2006 that was approved. They cited much needed maintenance as the reason. We as the residents have not seen the maintenance promised to the system. This rate increase cites the same needs for the increase. Lip service is cheap.

It is through years of mismanagement and lack of vision that is causing the city to ask for the increase. The appointment of unqualified management personnel, along with their inability to manage a budget should not fall upon the customer. This request comes on the foot heels of three (3) recent approvals by the City Council that validate mismanagement, lack of vision and poor resource management by the City Administration.

First, an electric rate increase in 2013 of 7.8% on the base cost of electric delivery to the residential user. All be it not water, nonetheless an approved increase cited for maintenance. As a community we've seen no increase in maintenance and an increase in the time it takes for electric service calls to be rectified. Certain areas of the City have regularly occurring power outages; my neighborhood being one of them.

Second, a \$21,000/year pay increase to Water Superintendent Tom Brewer in February 2014. This was approved by the City Council after Mr Brewer threatened to quit, leaving the City without a certified staff member. It would behoove the City to start the process of certifying additional staff. Pay raises like the one given to Mr Brewer are appalling and validate lack of leadership and resource management.

Third, and the most costly was the \$21 million decision by the same City Administration and City Council in 2006 to eliminate water meter reading personnel and install automatic satellite read water meters. In early 2014 the City started the replacement process of these meters because of a high failure and misreading rate. A \$21 million mistake that we as customers did not ask for.

Each of these examples show the City's inability to effectively manage revenues and costs associated with the management of our public utilities. I again oppose the increase. The City needs to prove effective business leadership and appointment of management personnel who are able to manage available resources.

Respectfully,

Ricky Robertson

RE: Anderson Water Rate Increase

Consumer Services Staff:

As concerned residents of Anderson we have seen and are paying higher, electric, gas, automobile gasoline, and grocery prices. Where does it end? Now, water rate hikes.

Anderson has suffered industry loses and is not recovering very fast. It is a city of senior citizens, mostly retirees of General Motors. We do not get promotions, pay increases, or the occasional bonuses. Once in a while we get a cost of living increase and that is when we see an increase in prices, especially Medicare. The industries in Anderson are hospitals, assisted living, senior housing, nursing homes, and occasionally in the Flagship there will be a factory added. The big industry in Anderson right now is Nestles. Most seniors are really not wanting to go back to work, but if things keep getting worse, we will have to. There are not many jobs for seniors these days, due to health conditions a lot of us are limited on what we can do.

We understand that things wear out and need replacement. As home owners we are constantly replacing worn out items (roof, electric, appliances, etc.). We also have to replace our automobiles every so often.

Our question is with the water rate hike over two years, why are you taking out a 14.3 million dollar bond-you? Are you paying off one loan and taking out another? How much debt is there? What do you lease? Are there going to be more rate hikes to pay off more debt. Is there money put aside for all the old pipes in the city which will eventually break? How much will it cost to replace other townships water plants or wells besides the ones mentioned?

Anderson has so many houses that are vacated, boarded up or falling down and more going into foreclosure. What base is going to be used, only houses that are occupied? There are more and more houses in Anderson that people are just walking away from because they can no longer afford them. This is due to job loss and not being able to find work because there are no jobs.

Can we get a printout of what our money is actually paying for now as far as the water bill? What is being leased and how much? What is going towards debt already incurred, and employees pay, etc.?

As people move out of Anderson because there are no over minimum wage jobs, those of us who are left have to make up the loss by paying more of the increases of utilities. Most of us are on a fixed income, a big percentage of young people are on welfare, and others are on assistance for their utility bills.

The bigger families get the highest increase in this rate hike, most younger people with children use more water and usually both adults work. This is tough for these young families. A lot of young adults out of college are moving home because of low paying jobs and student loans and they cannot afford separate housing.

We know the utilities need upgraded but those who can't afford an increase will it fall on us seniors in Anderson?

It seems like everything is going up, our pensions and social security are not. We saw that there hasn't been an increase since 2006-why now? Where does it end?

Now Anderson is looking into building the Mounds Lake Reservoir. This will benefit Indianapolis, not Anderson. Indianapolis wants to buy the water from the reservoir when it is needed. What if we need the water? This reservoir will decrease the number of residents in Anderson because the houses are in the lower income areas and businesses will be flooded. The lower income areas will probably not get enough for their houses to buy another in Anderson. This is supposed to bring more income to Anderson. This will just cause more increases especially in the tax base they will lose.

Thank you for letting us voice our opinions.

**Subject:** 47% water rate increase

My name is Jack Smith, I live at 611 Heritage LN. Anderson, IN. 46013  
IURC cause # 44308

I am writing you because many in Anderson, cannot afford such a high rate increase. Most of Anderson, is made up of old, poor and retired people that are on a fixed income. We have no jobs but the people running our city thinks everyone is made of money. Our Mayor just gave the superintendent of the water department a \$21,000.00 raise. Then they turn right around and ask for a 47% rate increase. They say they need more money to run this dept. but if they managed like my wife and I must they would have plenty of money to work with. Please I am asking you for the people of Anderson, to either deny or reduce this rate that they are asking for. We cannot afford it. I know they will paint you a gloom and doom picture but please see through it.

Thanks Jack Smith, Anderson, IN. 46013 (765-617-9290)

Comments: Proposal to increase water rates for the city of Anderson. I am willing to pay increased rates IF it actually leads to better quality water which in turn would lead to better health outcomes. Other factors need to also be considered such as preventing runoff of fertilizers and pesticides from farms and manure runoff from factory farms and pesticides from home owners yards. We need to create barriers around lakes and rivers and encourage eliminating phosphorus from fertilizers. We should also make it worth their while for farmers to begin farming without harmful chemicals; organic farming is growing more and more in demand by consumers. It's better for our health and it's better for the earth. Clean, safe water is a precious commodity and worth preserving.

## Indiana Office of Utility Consumer Counselor

We the following are signing a petition against the high Anderson's proposed 47% water rate increase. It is inevitable an increase will be allowed, but not 47% when the city has wronged the residents by taking city officials and or employee's salaries from the utility's funds. The mayor has even asked for across the board salary raises still putting more burden on the community and its residents. There are now homes occupied with absolutely no utilities, many in poverty, landlords furnishing utilities, and tenants with low incomes unable to meet their present monthly rent. Please give your upmost sincere consideration to this increase. Thanking you so much, from the affected water using residents of Anderson, Indiana.

Oct. 28, 2014

Dear Mr Anthony Svinger & Lindsay,  
I have enclosed 2 sheets with  
signatures that I received later -  
I am sending them in case they  
could be included with the rest  
I brought on Mon, the 20<sup>th</sup>

Thank you so much for your  
time on 10/20/14.

It is hoped we can get some  
relief on the ask for 47%  
over the next 2 years.

It has also been said, the residents  
are seeing this increase, so big  
corporate businesses will not, like  
Nestle's here southwest of  
Anderson, & a part of Anderson.

Thanks again,

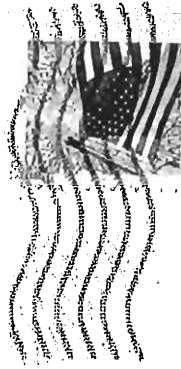

Sincerely,  
Phyllis Hobbs  
765-648-4419
