Comments of AARP Indiana: IURC Cause No. 4562

January 13, 2022

AARP Indiana, on behalf of its thousands of ratepayers in northern Indiana who are NIPSCO gas customers, is writing today to object to many of the proposals contained in the natural gas rate case, which proposes to increase base natural gas rates a stunning 17% on average plus increase the monthly fixed gas customer charge by 75% to \$24.50 a month.

This base rate increase is on top of the many other rate increases that have already been approved including the gas commodity charge increase and the infrastructure tracker increases.

The IURC already has approved over \$1 billion in rate increases which will increase monthly bills every year through 2025. Now the company wants another 17% increase.

As evidence of the combined impact of several proposed rate increases, the utility told WANE TV on September 29, 2021, that it expects climbing natural gas costs to increase heating bills by 40% this winter (from November to March), a \$168 increase.

The increases could not come at a worse time. Many Hoosiers, especially older residents who are on low or fixed incomes, are already struggling to afford necessities such as food and medicine.

Most importantly, high fixed charges – such as the proposed \$24.50 per month customer charge – make it difficult for consumers to control their gas bill. It also discourages conservation by lowering the volumetric rate. Our specific comments are as follows:

The customer charge is already too high and should not be increased

AARP strongly opposes NIPSCO's request to go to a \$24.50 a month customer charge. The current \$14 a month customer charge is already too high and makes it difficult for ratepayers to control costs. A 75% increase in the customer charge should be soundly rejected and the IURC should consider lowering it to \$10 or less.

AARP has opposed efforts by utilities around the country to move more costs into the monthly customer charge. The IURC should reject the claim by NIPSCO that a \$41 per month customer charge is justified or justifiable. The current rate design is best for consumers because it allows them to manage their energy bill better.

While NIPSCO claims low-use ratepayers will not be harmed by the move, the 17% increase on average becomes a 39% increase for users of just 20 therms a month because of the significant hike in the monthly customer charge – which adversely impacts low energy users. (Source CAC website, citact.org, "Fight the NIPSCO Gas Rate Hike").

AARP also does not agree that a higher customer charge helps to smooth volatile bills. A more effective way for customers that want a predictable monthly bill would be to enroll in budget billing.

NIPSCO has already increased gas rates dramatically since 2018

NIPSCO says the increase is needed to upgrade aging infrastructure and provide additional safeguards in place regarding the safety of its operations. NIPSCO says it has not changed its natural gas (base) rates since 2018.

However, it has numerous trackers already in place, including an infrastructure tracker and other IURC-approved increases that have dramatically increased gas rates including commodity rates.

AARP urges the IURC to ensure that only essential upgrade spending is allowed to avoid “gold plating” the system. Spending should be limited only to what is essential for safety and reliability of the gas system.

The rate of return request should be lowered to 9%.

The company wants a 10.5% rate of return, about 1.5% higher than what are the prevailing rates of return nationally. AARP urges the IURC to reject the requested rate.

AARP opposes yet another new automatic rate increase mechanism

The IURC should also reject NIPSCO’s request for another new tracker or surcharge mechanism – one which increases rates if tax rates change.

The new tracker purportedly is a “proposed adjustment mechanism for future changes in federal/state income tax rates, utility receipts tax rate, or public utility fee rate.” AARP believes that it is hard to accurately audit such automatic surcharges and trackers that are spun off the general rate cases. Further, AARP opposes such single-issue surcharges which do not allow for consideration of offsetting cost decreases.

Too many costs are already recovered under trackers with the most egregious example being the TDSIC tracker (Transmission and Distribution Infrastructure Tracker) which raises rates almost automatically for forecast infrastructure spending.

Instead of approving yet another new surcharge based on speculative tax increases, the IURC should order NIPSCO to file rate cases to reflect actual (not speculative) cost changes and stop the trend to put every cost possible (real and forecast) into its own tracker.

In summary, AARP requests the IURC:

- Allow no increase to the customer charge whatsoever
- Reject the proposed tax increase tracker
- Lower the rate of return request to 9%, which is on par with the national average
- Order NIPSCO to disclose the many increases (commodity charge, TDSIC, base rate increase) so customers can see how much rates are increasing
- Require NIPSCO to better publicize its conservation, rate, and energy assistance offerings (including where to sign up for LIHEAP)

We appreciate the opportunity to comment.

To Whom It May Concern:

Please find enclosed a copy of the resolution passed tonight by the City of Gary opposing the rate increase proposed by NIPSCO in IURC Cause No. 45621. The resolution, presented to the council by Mayor Jerome Prince, was passed unanimously by the every single council member. The City of Gary remains unified in their opposition to the rate hike as we feel it will be a significant burden on our constituents, as detailed in the resolution.

Thank you for accepting this resolution. Even though the public comments have closed as of today, I will update shortly with a signed version of the attached resolution. It will be the exact same except with the signatures as the city council meeting was tonight. My name, position and mailing address are listed below. Thank you.

AS AMENDED _____
CERTIFICATION DATE _____
CERTIFIED BY _____
FAVORABLY _____
UNFAVORABLY _____

**A RESOLUTION OPPOSING THE PROPOSED NIPSCO RATE HIKE
(IURC Cause No. 45621)**

WHEREAS, the Mayor of Gary and the Gary Common Council are committed to City of Gary and all its citizens; and,

WHEREAS, the national median income is \$60,293, Indiana median income is \$54,325 and Gary, Indiana median income is \$31,936 (247wallst.com and world population online); and,

WHEREAS, the latest U.S. Census data shows that 30.6% of the citizens of Gary, In live in poverty; and,

WHEREAS, the U.S. Census data showed that 18.4% of the population of Gary is over 65 years old, with 31% of the population consist of minors; and,

WHEREAS, Gary and the nation are still in the middle of a pandemic caused by the coronavirus, with slightly over half of the population in Indiana having received the full two rounds of vaccination shots (Vaccination, Indiana online); and,

WHEREAS, at the end of 2021, a total of 224 Gary citizens have succumbed to the horrible disease (NWI Times, 12-2-21); and,

WHEREAS, the pandemic has caused not only physical harm, but also economic harm to the citizens of Gary; and,

WHEREAS, the unemployment rate of 7.5% for Gary, Indiana is over twice the state of Indiana average of 3% and is the highest of the entire state (NWI Times, Dec. 2021); and,

WHEREAS, energy insecurity in Indiana primarily affects those who are in poverty, with those making \$32,300 having to spend 6% of their income on energy, and those making \$16,200 having to spend 12% of their income on energy cost (; and,

WHEREAS, households with at least one person over 65, people of color and households with small children are disproportionately affected by energy insecurity and an inability to pay rising energy cost (Indiana University Study, 2020); and,

WHEREAS, energy cost is further exacerbated by older buildings that have less insulation and by extreme weather patterns, and,

WHEREAS, people who are unable to pay their NISPCO may fall prey to high-interest payday loans and relying on dangerous heating sources like space heaters or ovens. They may also suffer adverse mental and physical health consequences (O'Neill, Indiana University Bloomington 2021); and,

WHEREAS, NIPSCO seeks to raise their rates by as 17%, with the customer charge for residential families increasing to \$24.50 per month from \$14.00 per month, while small commercial customers would see their monthly customer charges increase to \$80.00 from the current rate of \$53.00 per month; and,

WHEREAS, NIPSCO has indicated the rate hike is needed to offset increasing cost and to provide a "fair return upon the fair value of its property" for investors (South Bend Tribune, Oct. 2021);

WHEREAS, the citizens of Gary have had a rate hike from Indiana water in 2020 and a rate hike from the Gary Sanitation District in 2020, on top of a prior NIPSCO rate hike in 2018.

NOW, THEREFORE, BE IT RESOLVED by the Mayor and the Common Council of the City of Gary, Indiana, on the behalf of our citizens, that we oppose the proposed rate hike submitted to the Indiana Utility Regulatory Commission by NIPSCO, Cause No. 45621.

BE IT FURTHER RESOLVED, that this Resolution shall be effective from and after passage and signing by the Mayor.

DEAR UTILITY REGULATORY COMMISSION 1/10/22

IN REGARDS TO NIPSCO'S PROPOSAL TO RAISE ITS NATURAL GAS PRICES AND SERVICE CHARGES, I FEEL COMPELLED TO SPEAK OUT.

I LOST MY JOB OF 35 YEARS ON 1/1/21 DUE TO THE PANDEMIC AND DOWNSIZING. I AM 69 YEARS OLD WITH SEVERAL HEALTH CONDITIONS, (HEART VALVE & ASOMA). I AM CURRENTLY ON SOCIAL SECURITY AND MEDICARE AND MEDICAID.

MY SS CHECK BEARLY COVERS MY BILLS. ONE OF MY MEDICATIONS IS \$475.00 A MONTH. THIS COMES OUT OF SAVINGS. I THINK RAISING THE CUSTOMER SERVICE CHARGE OF \$14.00 A MONTH TO \$24.50 IS A LITTLE EXTREME. NIPSCO JUST HAD AN ELECTRIC RATE INCREASE LAST YEAR. I FEAR IT WILL COME DOWN TO PAYING HEATING AND COOLING CHARGES VERSES OTHER BILLS AND MEDICATION AND FOOD.

IT WOULD SEEM SENIOR CITIZENS ARE GOING TO FEEL THE BRUNT OF THIS REQUEST. I WORKED HARD ALL MY LIFE ONLY TO BEAR OF GOING BROKE.

THANK YOU
WILLIAM W. BOYER

Public Comments
and
Dear NIPSCO Gas

My name is Marlene White. I live at 201 Hendricks St.
Michigan City, In 46360

I am 82 years old & have been a widow for 29 years. During this time I have maintained my home and paid my bills even tho I'm on a fixed income, and it isn't easy.

I keep my thermostat on 63°. When it's windy out, I put it on 64°. I'd like to keep it on 68° as I did years ago, but I can't afford it. Now it looks like I'll be putting it on 61° or 62° if this increased rate goes thru for NIPSCO. This increased rate may not be so bad, if you have a good paying job or are well off financially. But, there are many people, like me, and also, those with low paying jobs who are already struggling to make ends meet.

I am a small "business". NIPSCO is a very large business. If I, for 29 years maintained my budget by finding ways to maintain it, why can't NIPSCO do the same? After all, I'm sure NIPSCO has lawyers, accountants etc. Let them find ways, like I do.

How would NIPSCO employees like it if their income was 17% less?

Please do not pass this ^{increased} rate of gas and monthly service charge.

Sincerely,
Marlene White

Attention: Indiana Off. of Utility Customer Counselors

Dear Sir:

I am a 78 year old senior citizen and Indiana resident who gets my gas from NIPSCO. My income is fixed to Social Security and a smaller pension. I don't have a computer or smart phone. I live alone, and can not depend on relatives who are all deceased, except for a nephew and niece. I don't have children.

My question is how can someone like myself afford a \$20.00 or more increase in my gas bill when all my other bills are going up like taxes, food, other utilities, etc.? What do you propose that I do? I could become isolated by shutting down my cable, etc. bills. I could stop supporting my church. I don't qualify for public assistance because of the pension. Please tell me what someone like myself must do next?

Yours truly,
Patricia Bartnicki

Dear Sir

Jan. 6, 2022

My gas is already high. I am 85 years old and on Spas S. I'm everything is going up. but how on all the older people going to leave. So I am for a lot of customers that also are finding it difficult to leave any how food also went up high like water gas and I do not buy anything I don't need, all my medicines is going up. I guess when you get old no one cares - But I want to thank you for taking the time to read my letter. Here is my name and address.

Thank you again

In regards to this 17% increase NIPSCO is requesting your approval of. Supposedly NIPSCO when requesting an increase whether it is for electric or gas they always say they pay: (1) Infra-structure investments, (2) Maintenance, (3) Higher operating cost, (4) Dividends, (5) etc, etc, etc. (6) I forgot, to build another plant.

This is a bunch of double talk. They (NIPSCO) pay for as little as possible. They also seem to get half of what they request.

When us seniors get a Social Security raise or a Federal Pension increase (if SS gets a raise OPI (Federal Pension gets the same)). It only goes so far. Everyone wants a piece of the increase, grocery store, gas stations, health

insurance, car insurance, home owners insurance, mail (stamps), property taxes & on & on. NIPSCO needs to stop giving out dividends this is a chance we take when we buy stocks, & bones to CEO's + pay their share of operating a business.

Restaurants & department stores don't raise their prices \$29 (Customer service charge increase. Who do you think will pay this. The consumer, NIPSCO customers besides the 9.59 increase we already will be paying besides the \$14 Customer service charge.

If you as the Utility Board want to be fair not only to NIPSCO but to us the people of Indiana (who you are suppose to be looking out for) should ~~not~~ not get this increase, not even half of it. NIPSCO should not give any bonuses or dividends if they need this much money to pay for investments, maintenance & operating costs.

Sincerely

Re: Missed Customer Charge Increase

First increase of 17%, to our monthly Bill, would not be too bad, to keep natural gas in our homes safe. The next rate hike from \$14.00 to \$24.50, is asking too much for the public to have to bear. Indiana residents are struggling now to make ends meet. Indiana residents can not afford these increases.

I don't expect a business to operate at a loss, but I do expect them to incur expenses against profits. The increases is exorbitant. Please Vote against raising our natural gas rates to homeowners.

Sincerely
Antech Szafarz

Re.: IURC Cause No. 45621 - NIPSCO Gas

Dear Sir or Madam:

Per a recent brochure NIPSCO included with my gas and electric bill, it writes: "We have been the lowest natural gas cost provider in Indiana on average over the last 10 years . . . and among the lowest in the nation." Well, good for them! Shouldn't they be pleased they are running their business so efficiently?

The brochure goes on to state that NIPSCO's costs have increased as they "upgrade our services and infrastructure today." But, does NIPSCO ever ask for a rate DECREASE AFTER they've completed the upgrade of their services and infrastructure? Uh, I don't think so.

NIPSCO's brochure says that there would be "less volatility in customer service bills and reduced winter bills for high use customers." Do you hear me complaining about volatility? I'm not complaining about volatility. I expect some of that such that I always factor that into my budget. However, why should residential consumers be responsible for subsidizing "high use" customers? These high use customers need a better business model, or they should go out of business if they can't make ends meet. Residential people have to watch their budget, income and expenditures to run their homes; so why can't high-use customers do likewise? NIPSCO requesting continual rate hikes hurts consumers, especially those who are low income or retirees on fixed incomes.

It is common knowledge up in these parts that NIPSCO employees, especially union, are generously and well paid.

Also, NIPSCO compares itself to other utilities and uses this as justification to ask for higher rates. Well, if NIPSCO is operating efficiently, then why do they care what other utilities do which operate in entirely different environments and circumstances?

Last, we all know about "negotiation." NIPSCO intentionally asks for an exorbitant price hike knowing they won't get it. So they ask for a high 17% because they know they will at least get SOMETHING. They do this all the time. Deny them once in a while because even "small" rate increases add up over time and this puts us on a never-ending spiral of price increases.

Sincerely, 
Marybeth Yokovich

Ref: IURC cause no. 45621 or NIPSCO Gas

To whom it may concern

NIPSCO is requesting a large increase in Gas. We as senior citizens on fixed incomes, we will find this increase very much a hardship. We do not understand why an increase is needed of such a large amount. NIPSCO says they are looking for different ways to cut cost they have eliminated hundreds of jobs in the Generating Stations which should of cut enough wages and left them with enough Profit.

We are begging you to not allow this increase. As we will find it hard to heat our home and have to choose between medicine + heat.

As far as nipSCO and infrastructure that is always there excuse. We all have higher operating cost after pandemic and are not getting but a small Social Security increase. Again asking you to vote NO to cause 45621

17% is a bit too much, considering many are on a fixed income, and don't receive any meaningful increase to their cost of living. It makes no sense to me that you offer any kind of help to low income by using grants or whatever, because everyone else wouldn't qualify and still have to pay. Why not use the grants to offset the 17% increase to keep the cost down for all?

I am writing in regards to NIPSCO Cause #45621 that relates to a rate increase. The increase deeply troubles me to think this company could spend millions of dollars enlarging their plant in Michigan City over a three year period, only to immediately announce they are going to turn around and demolish the entire plant. And the customers have to pay for their poor judgement ! How do the executives have the nerve to ask us to pay for their mistakes?

I'm sure the executives at NIPSCO are receiving very large compensation for their poor judgement. Do these people still have their jobs? We have already had rate increases, and to ask for such high increases again is beyond my imagination. The money should come out of executives salaries and from the stockholders. The stock market is a gamble and stockholders know what happens when you put your money into a company that uses poor judgement.

Ignorance doesn't deserve compensation.

To Whom it May Concern,

Please do not raise your prices by 17%. That isn't manageable for most people. My husband and I are public servants. (Teacher and police officer) We very often get little or no pay raises each year. Have you thought about giving discounts to public servants?

Many companies do. We also worry about my mother in law on a fixed income.

Please consider a smaller increase. We understand prices will rise.

Thank you.

I'm against NIPSCO raising our gas rate by 17%. Their rates are already some of the highest and people, especially people like me who are on disability, can't afford another rate hike on our utilities. NIPSCO hiked our electric rates several times last year and now they want 17% more for gas during an extremely cold winter. Enough is enough.

I'm concerned about the proposed 17% increase for Nipsco in my area. The rates are already affecting my family in a negative way as this past bill for December 2021 was more than my mortgage for the first time ever. I fear I won't be able to keep my family safe and warm if our bill continues to increase. With the inflation of gas and groceries our quality of life is becoming poorer. As representatives of our community, I implore you to not approve of this increase. Sincerely, a Michigan City resident of over seventeen years, and a mother of three.

To the OUCC Board,

I am emailing to request that the OUCC board deny or severely restrict the rate increase that NIPSCO is requesting for natural gas rates and a monthly service charge rate,

These increased costs are extreme and will cause a financial burden on my household. As a senior citizen on a fixed income, I do not welcome an additional and costly increase for me for natural gas.

Thank you for allowing me to comment and please vote down this costly and expensive increase to Indiana consumers, especially senior citizens.

What is happening with our bills , I've done nothing different other than lower our heat reducing the electricity we use , I just got rid of an audio system which should have reduced our electric side ! I've never paid more than 249 during the cold months , now my bill was 350.00 . This is an outrage of cornering the market . I will somehow get meetings together to fight this . What about people who are low income ! Oh I forgot ... they get assistance . But for me , we have to adjust out living because we get no assistance . Please contact me back

I'm concerned about the rate hike proposal. I believe the rising costs are not only going to impact me and my family financially but my elderly parents and every household that is supplied by Nipsco. The extent of this hike is way too much and will negatively impact everyone that is supplied by Nipsco. I hope you don't allow this

I am requesting you to not allow this extreme rate increase for myself my family and everyone household it would impact negatively. People are struggling enough - and should be able to have a decent warmth in their homes without worrying if they have to give up some other basic need to afford it. I see this as a negative and help families find their homes for a living. My mother already worries every time the bill comes.

I would like this email to reflect my opposition to the proposed 17% gas rate hike that Nipsco is asking for. Is this just for the actual gas commodity cost, because this fluctuates month to month now? The real issue that needs to be addressed here are the exorbitant built in fees that they are charging: such as interstate transportation and storage charges and delivery charges. In a 3 month period, my pipeline and storage fees went up 400% (.0872 to .1662 to .3542) from 4/21-6/21. How can they be allowed to move this rate around like that? When my total gas supply charges are 4x to 5x what my commodity charge is, I find that disturbing. The delivery charges I find very questionable. When my gas commodity cost is only \$4.00, the deliver charge was \$23.00! How is this possible? And the other elephant in the room that needs to be brought up is the increase in the customer service charge, going from \$14.00 to \$24.50. That is a 75% increase!! I can't think of any other monthly bill that has a customer service fee attached to it that I pay? Why are we being charged for this? I hope that these ridiculous fees can be looked into as well as the monthly customer service fee...

Hello my name is Ron Thode and my email is ronthode@yahoo.com, my phone number is 219-617-1172. this is to inform you that I do not think NIPSCO deserves a rate increase I just retired and am living on a fixed income my last months gas bill was \$125.94 for 127 therms. I and other senior citizens cannot afford a rate increase not with the cost of living increase we received that went to cover only part of the medical increase. we are fighting to be able to live comfortably in our golden years and with AARP help we are fighting to lower med costs and medicines . this increase only puts more undue burdens on senior citizens at this time. we know part of the cost is going to be to shut down the facility in Michigan City but they knew this was coming for a long time and should have devised a plan for shut down that would not put undue burdens on their customers

Sincerely
Ron Thode

To whom this concerns,

I am very disturbed to hear that there is going to be a 17% gas hike. I, like many others, live paycheck-to-paycheck. Right now, I can barely afford to stay warm how it is without price gouging. This last month, my bill was close to \$300.00. Add another 17%, and I'm ruined. I'm already facing bankruptcy since my wife passed from cancer. NIPSCO GAS is the only provider, and we have no choice in the matter who delivers it. How can you allow this to happen? It is down-right despicable. Times are already hard enough without having to worry about soaring gas prices. I'm disgusted that my Elected officials would allow this. Stop this insanity!

Sincerely,

Kenneth Worthington

I'd like to make a few comments regarding the proposed natural gas hikes by NipSCO...

First of all, I don't mind paying a little more if it means that infrastructure and maintenance are their top priorities. Hopefully this will include improvements to our electric grid, as we all know how critical this utility is to the populace and to the security of our nation as a whole.

Secondly, I thought that with all of these wind turbines located throughout the state this would actually "reduce" our utility costs, but I have not seen any indication that that has/will happen; it certainly hasn't happened for us so far, and I am sure many would agree. It seems that they have been around long enough to have a positive effect on our bills.

Third, **I would like to see much better transparency with regard to the wind turbines. Who are they actually benefiting?** For the most part, we only know what we see and hear...migratory birds being killed by the thousands every year...loud humming sounds heard by anyone in their vicinity...obnoxious red lights that cover the landscape at night...etc.

Thanks for listening!

Hello, I was disappointed to hear that Nipsco is going to have yet another rate increase. I understand that we have to pay for gas and electric but the current amount is even too much. I work full time and with the almost \$300 Nipsco bill monthly it is making it near impossible to make ends meet. I have been keeping my thermostat between 66-68 degrees and telling my daughters that we just have to bundle up. I make just above the amount for any type of assistance and am constantly trying to become more energy efficient. Please do not let them increase their rates again. There are no other power companies that service my area to even switch to.

Thank you for taking the time to read my comments and hopefully my viewpoint will help others see that people are really trying to keep up but with the rates constantly rising that will soon be impossible.

Sincerely,
Sacha

This increase is ridiculous. I live by myself I don't have a 2 income house. I can not afford to keep paying ur rates. Nipsco is taking advantage of people. I can never pay my whole bill at once. I pay what I can. Then if I get a shut off notice. Ok well if I can't pay the whole bill of what u want to avoid shut off how in the world do u expect us to come up with the rest of the bill amount in full plus a deposit and re connect fee. Common sense u need to work with people nipsco is our only option and u are taking advantage of people. We already can barely even afford food. I applied for Nipsco help because I don't have any income at the moment and no one ever helped me just ignored my calls and application. Was told I was over looked and still didn't get any help. Thank you. Nipsco customer

Good morning.

My husband and I both work and always have and paid our bills on time. We have family all over Indiana, and compare rates with electric and gas. It is outrageous the difference and that Nipsco keeps raising their rates and or charges to supply gas and or electric. Please for sake of hard working people who already pay the high bills do not allow them to raise rates or charges to increase their profit. We cannot afford the higher bills so what do we think single or senior families can afford? Let's tell Nipsco no ...and vote NO!!

Thank you,

The 17% proposed hike is ridiculous. There are already people who can not afford their bill as it is.

My bill went from \$175 to \$480 from November to December and that alone is insane, without the tax hike. Because of the below zero Temps this week, I'm afraid to see what next month's is. Please please help with the fight against this hike!

Thank you,

To whom it may concern,
My name is Linda Spalding. I am single.
I reside at 129 South Ave, La Porte, IN 46350. I am 72 years old and live on social security. I receive \$12 too much to be eligible for assistance.
Even with the COLA increase, prices have risen so much, I struggle to make ends meet.
I keep my house temperature at 68-69 degrees, wear 2 sets of clothes most days to try and stay warm.
I'm permanently disabled due to back injuries and COPD.
An increase in Nipsco rates will cause me great difficulties.

Please, do not raise rates.
Sincerely,
Linda Spalding

My name is Mark A Fox, 942 E. Armstrong Road, Leesburg, IN 46538.

I object to NIPSCO's request for a 17% rate increase. I know from personal experience that the company operates on the concept that the more inefficient they operate, the more money they get to handle, and since they are allowed a "Reasonable" profit, this works to promote this inefficiency. PLEASE refuse their request and force them to operate as if they were not a MONOPOLY. We as consumers simply have no choice but to use their service, and you are our only way to keep our costs in check.

PLEASE do the right thing and tell them NO.

Thank you so much,

-mark

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

I am writing to request that the NIPSCO rate increase be denied. I am a senior citizen on Social Security who has tried every way possible to reduce my expenditures. Even though I keep my thermostat set at 68, my drafty old house is still cold. I never would have dreamed I would have to wear 3 & 4 "layers" of clothing to keep warm. I wash 2 loads of wash a week which does require the use of my gas dryer. There would be those who say, "just hang the clothes to dry. You don't **need a dryer**". I am a 77 year old woman with multiple health issues. Hanging clothes, which I did for at least 60 years, becomes increasingly difficult and quite painful.

NIPSCO, I'm sure, has felt a major hit to their bottom line with the increase in the cost of natural gas. To raise their rate by **75%** is outrageous! But why is it we consumers must pay the price of bad policies, both corporate and governmental? Why is it always "the little" guy who ultimately pays the price? Why can't NIPSCO shoulder much of the cost of the shockling high prices for natural gas? NIPSCO has a very bad reputation in the area of customer satisfaction, and trust me, I will make sure to spread the word of this burdensome increase.

Again, I am asking that the increase of **75%** be denied.

Sara

Hello.

I've recently been reading there could be a significant increase for NIPSCO. I am praying this doesn't happen. The cost of living is going up, but paychecks are not. We are already struggling as it is, how are Earth are we suppose to afford more? This will cause more harm than good. More shut off notices, more budget plans, more debt owed. Please help fight against this. I don't want to have to move back in with my parents.

It's extremely disappointing that an increase of 17% is being considered when so many of us struggle just to heat our homes as it is. Many of us won't be able to afford that increase. Also, the increase will affect local businesses because we won't be able to spend that extra money elsewhere. Please think of the people that need a break the most; Working class and the poor!

If providing comments on a specific case, please indicate the cause number and/or name of utility:: NIPSCO Cost Increase

Why the huge increase at such a bad time?
Infrastructure has not changed in my area.
Adjusting the cost of domestic natural gas to the world market is only a ploy to

Your Comments::

increase revenue.

I think NIPSCO just got on the Covid-19 price increase bandwagon.

We need to put a stop to this nonsense!

Nipsco

**Your
Comments::**

The purposed rate hike of 17% is a unreasonable hike. Nipsco customers already pay the highest electricity charges. My bill is almost 3 times during the winter now, than during the warmer months. Many consumers are on a fixed income in this area and don't have a choice of switching to a different provider. Please consider this when looking at Nipscos rate increase request.

Your Comments::

I'm concerned about their proposed rate increase. This type of increase seems excessive.
The average household has been hit by increases in grocery, vehicle fuel, and cost of living in general.

Please fight this increase. The quality of our natural gas has continued to degrade. We can see the discoloration with air in our lines already. When stove top cooking.

I'm concerned about the proposed 17% increase for Nipsco in my area. The rates are already affecting my family in a negative way as this past bill for December 2021 was more than my mortgage for the first time ever. I fear I won't be able to keep my family safe and warm if our bill continues to increase. With the inflation of gas and groceries our quality of life is becoming poorer. As representatives of our community, I implore you to not approve of this increase. Sincerely, a Michigan City resident of over seventeen years, and a mother of three.

Nipsco Gas rate hike

**Your
Comments::**

I'm a Nipsco customer and I feel that a 17% gas rate hike is out of the question. We are senior's living on a fixed income. No we're not at the poverty level, but don't have much extra with all that Biden has done to the American Citizens in the U.S. Please refrain from such a hefty rate hike.

Sincerely, Joan Berryhill

**Your
Comments::**

I am against a rate increase for Nipsco. As a homeowner for over 45 years in Northwest Indiana, I have not seen any improvements in the past with the past increases. Nipsco takes too long to correct power outages. What exactly is the customer service charge for? To increase it on a small commercial building to \$80.00. What exactly is that for. I pay for each therm, so why would Nipsco need to charge a fee for supply gas? In 2007, Nipsco had a program if you installed Geo-Thermal units in your home you receive a discount for electric. Nipsco did away with that discount for the electric. Nipsco is too large of a corporation and without any other PUBLIC Utility company to choose from they have a monopoly, that must be carefully watched. When the Executives of a PUBLIC Utility makes over one million in salary that should be a red flag. Nipsco should not be granted any rate increases and Indiana should try to have another Public Utility company for competition.

Nipsco Proposed Rate Increase

As a Nipsco residential user, I would like to voice my opinion against the proposed utility increase. After reviewing my usage record of FY2021, my estimated rates for FY 2022 would increase over 30% (+). I find the \$10.50 customer service increase something that needs clarified for why the need of a 43% increase. I realize rates need reviewed, but the increase being proposed seems to be on the high side across the board.

**Your
Comments::**

"Each NIPSCO residential gas bill includes a monthly \$14.00 customer service charge which does not vary based on usage. It would rise to \$24.50 under the utility's request. The remainder of the bill varies by customer usage. For small commercial customers, the monthly customer charge would rise from \$53.00 to \$80.00."

I strongly disagree with any rate hike for nipsco consumers. EVERY product food, gas, hygiene etc has gone up exponentially. We have a family,, I can barely afford to keep my heat at 62°. Im not eligible for any assistance paying my bills. It's winter and I shouldn't be deciding if I can afford heat, medicine or food. We have 2 adults working. Please deny the rate hike, they want to close in 2 years. Just another way to make record profits for their shareholders and the average working person pays for it.

I own three properties serviced by NIPSCO Gas. I have lived in the La Porte County area most of my life and have friends and family here . Many of them work for NIPSCO. Stories are rampant about how material and time are misused and wasted. The pay scale is also exceptionally generous. I suggest they get a control on expenses rather than more money to waste.

My gas bill for December 2020 using 152.9 Therms was \$97.28. My current gas bill for December 2021 using 148.6 Therms is \$134.17. By my calculation, almost a 38% increase. Please ask the Utility Regulatory Commission to take a closer look at this proposal. Perhaps, a more moderate rate is in order.

NIPSCO Gas

**Your
Comments::**

I usually don't do this, but a 17% hike for NIPSCO gas? During a Pandemic?! I'm single, live by myself in a small home under 1000 square feet. Everything is going up. But NIPSCO 17%? Either they hold off on this, or what about giving us options besides NIPSCO to choose from. Thank you for your time.

I think this 17% rate hike well we are still facing a pandemic and peoples income being greatly affected is completely inhumane. I work at a financial institution and I'm seeing people greatly impacted by this substantial increase. It is corporate greed at its finest and shows that this corporation has little to no heart for its consumers. Please consider your clientele that has fixed income and is now trying to figure out how to survive. People shouldn't have to choose between being warm or eating. Thank you.

Nipsco gas

**Your
Comments::**

Myself and so many other families pray that you do not allow the gas hike. My home is a bi level family of 5. We don't qualify for government assistance and help one child through college. We live paycheck to paycheck, literally by disconnect notice. Our Nipsco bill is anywhere between \$250-\$500 each month depending on weather conditions. Covid has effected our home now twice and things do not look like it will be any easier soon. I fear that many families will be without heat with the proposed gas hike, even 17% can make a difference. On a \$250 bill it can add just under \$50 extra a month which can cause a family to choose groceries vs Nipsco, both are vitally needed to survive in the winter months. With these difficult times, please deny Nipsco's request for the gas increase. Thank you for your time.

Rate hike NIPSCO

**Your
Comments::**

I am sending this in protest for the pending rate increase by the Northern Indiana Public Service Company.. We as senior citizens which I can say that I am a member of this age group cannot afford any increase in our monthly gas bill. I realize that costs increase for business but they should find another way without a burden on us. Thank you for you consideration in this matter.

Subject: OPPOSE NIPSCO's Requested Rate Hike - Cause Number 45621
Date: Saturday, January 8, 2022 10:53:36 AM

****** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ******

Dear Counselor Fine,

I am a NIPSCO Gas customer. Since you represent utility customers like me, I ask that you please urge the IURC to OPPOSE NIPSCO'S requested rate increase. NIPSCO is once again prioritizing corporate profits over Hoosiers.

I'm especially concerned about their request to increase the monthly fixed charge on my bill by 75%. Increasing the fixed charge from \$14 to \$24.50 means that the less natural gas I use, the harder this increase will hit me. This fee shifts a disproportionate burden onto low-income/low-usage customers.

There were hundreds of gas leaks in Elkhart & St Joseph Counties, that were finally fixed in 2019. Most of the complaints to NIPSCO over many years were never addressed and the leaks never repaired until NIPSCO was forced to do the repairs.

Please fight for us. We can't afford these endless increases in our monthly bills!

Regards,
Roger Weaver

**Your
Comments::**

I am writing to object to the proposed rate increase by NIPSCO, my natural gas provider. More specifically, I object to the increase in the monthly residential service charge from \$14 to \$24.50, a 75% jump in required fees.

Over the past year, I have done what I can do to keep my natural gas usage to a minimum. In fact, as I write this, I am in my home with the thermostat set at 58 degrees and wearing a lightweight winter coat (in addition to several layers). I utilize the eight-month level billing option which is currently \$46/month, with my average bill over the four other months last summer at roughly \$16/month. As such, my annual cost for NIPSCO is approximately \$432. The proposed increase in the monthly residential service charge would generate a 29% increase to my annual budget for this service (notwithstanding any additional costs due to commodity prices). I think the implementation of this proposal will place an undue and unreasonable burden on myself and other customers.

Thank you!

Jerome Young

NIPSCO

**Your
Comments::**

The increase on our natural gas is absolutely preposterous. I am disabled, on a very strict fixed income, & I'm a single mother! I'm not sure how they expect senior citizens or other people with medical issues or disabilities, to pay these outrageous amounts. This is definitely unfair, and something needs to be done about it. Everyone always wants to protect wins those with money, but no one ever stops I think about those without. I'm asking you to please investigate this, and make this right for those of us that can't stand side-by-side with those and a higher tax bracket.

Nipsco price changes

**Your
Comments::**

I am not happy about the 17% rise in nipsco. I work in a hospital on the floor with sick people and I never got time off during covid or any kind of hazard pay for compensation. I worked hard to help people and when I was sick I still had to use my own pto to take time off. I struggled still to pay bills and still do. So you making nipsco go up for what? Isn't okay!!! The country is struggling with multiple things and doing this to people is only making it worse! What about people with children who struggle more than me? What about the disabled who struggle to get groceries? Now you want them to suffer more? This doesn't make any sense.

NIPSCO's request for a rate increase should be declined. The cost of natural gas has already substantially increased in 2021. For example, my cost increased 9.3% (from \$732.88 in 2020 to \$801.06 in 2021), but my usage decreased 4.6% (from 904ccf in 2020 to 862ccf in 2021). Also, I buy the natural gas from NIPSCO and not from one of the other approved vendors.

If NIPSCO's request is approved, there will be an increase in consumers needing financial assistance.

Nipsco 17% gas rate hike

**Your
Comments::**

I am totally against this gas rate hike. When my gas commodity cost is \$5.00 during the summer months but my gas bill is \$50.00.... something is wrong! They add all these interstate transportation and storage charges and then hit you with delivery charges too! I think it's totally wrong that my gas service charge is more that quadruple my gas commodity cost! I also regularly pay attention to the monthly changes in the interstate pipeline and contract storage per therm charges.... I have seen this charge go up 50%-100% at times? How is that possible? Going from .0481 to .0825 and much higher? My average monthly gas/electric bill is between \$250-\$400. I have a well insulated house with a newer 98% efficient furnace and air conditioner. I keep my thermostat at 65 in the winter and 76 in the summer. I really think something needs to be done about all of these added fees to our bills before approving a 17% rate increase, it's getting out of hand in my opinion.....

IURC Cause No. 45621 Nipsco Gas

**Your
Comments::**

I'm 69 years old. I have just received a 5.9 percent Social Security cost of living adjustment if this rate hike is approved it will take the entire cost of living adjustment away from me.

I've read some of the testimony from the 18 or so Nipsco employee's and wondering how I can respond to them. I've read about the programs they developed to improve customer service. Pipeline safety all the programs for helping low-income people and so on. Yes, this does help folks. But with inflation at an all-time high and the economy being flat I think this adjustment is too HIGH. I say think because I had not had the ability to inspect the financial statements of Nipsco. If I could see the statements, I might be able to make cuts in other ways that might reduce the amount they are requesting. At this point in time, I beg you to reconsider this rate hike.

Sincerely.

Patrick Meaney.

Dear Counselor Fine,

I am a NIPSCO Gas customer. As my representative, I ask that you please urge the IURC to OPPOSE NIPSCO'S requested rate increase. NIPSCO is once again prioritizing corporate profits over Hoosiers.

I'm especially concerned about their request to increase the monthly fixed charge on my bill by 75%. Increasing the fixed charge from \$14 to \$24.50 means that the less natural gas I use, the harder this increase will hit me.

Please fight for us. We can't afford these endless increases in our monthly bills!

Dear Counselor Fine,

I am a NIPSCO Gas customer. Since you represent utility customers like me, I ask that you please urge the IURC to OPPOSE NIPSCO'S requested rate increase. NIPSCO seems to be prioritizing profits over people.

I'm especially concerned about their request to increase the monthly fixed charge on my bill by 75%. Increasing the fixed charge from \$14 to \$24.50 hurts most the poorest among us who use less gas.

Please fight for me, my family and the poor across our state. We don't get salary increases like this and can't afford these increases in our monthly bills!

Dear Counselor Fine,

I am a NIPSCO Gas customer. Since you represent utility customers like me, I ask that you please urge the IURC to OPPOSE NIPSCO'S requested rate increase. NIPSCO is once again prioritizing corporate profits over Hoosiers.

I'm especially concerned about their request to increase the monthly fixed charge on my bill by 75%. Increasing the fixed charge from \$14 to \$24.50 means that the less natural gas I use, the harder this increase will hit me.

Please fight for us. We can't afford these endless increases in our monthly bills!

Regards,
Heather creed

Dear Counselor Fine,

As a NIPSCO Gas customer, I am very concerned about their request to hike our gas bills again.

NIPSCO has recently received over \$1 BILLION in rate hikes, and now they're asking for even more? We can't afford to keep paying more and more on our natural gas bills, especially while a pandemic is still raging!

Please fight for us. We can't afford to have our bank accounts drained like this.

Dear Counselor Fine,

As a NIPSCO Gas customer, I am very concerned about their request to hike our gas bills again.

NIPSCO has recently received over \$1 BILLION in rate hikes, and now they're asking for even more? We can't afford to keep paying more and more on our natural gas bills, especially while a pandemic is still raging!

Please fight for us. We can't afford to have our bank accounts drained like this.

Regards,
Kevin Henderson

Dear Counselor Fine,

As a NIPSCO Gas customer, I am very concerned about their request to hike our gas bills again.

NIPSCO has recently received over \$1 MILLION in rate hikes, and now they're asking for even more? We can't afford to keep paying more and more on our natural gas bills, especially while a pandemic is still raging and natural gas prices have doubled!

Please fight for us. We can't afford to have our bank accounts drained like this.

Dear Counselor Fine,

I am a CenterPoint Energy customer, and I ask that you please REJECT CenterPoint's request to raise our bills by \$323 million.

Spending that much money on dirty gas plants that will barely operate is truly outrageous. CenterPoint needs to invest our money in projects that help us lower our bills - mainly energy efficiency and renewable energy.

Please fight for us. We can't afford to continue being cash cows for CenterPoint's profits.

Dear Counselor Fine,

I am a NIPSCO Gas customer, and I ask that you please REJECT NIPSCO's request to raise our natural gas bills yet again.

If this request is approved, it's going to cause our bills to go up by almost 20%, and that's above and beyond the significant increases we've already seen in the cost of natural gas.

Please fight for us to ensure that monthly gas bills are affordable, just, and reasonable. We can't afford to continue being cash cows for NIPSCO's profits.

Dear Counselor Fine,

I am a NIPSCO Gas customer, and I ask that you please REJECT NIPSCO's request to raise our natural gas bills yet again.

If this request is approved, it's going to cause our bills to go up by almost 20%, and that's above and beyond the significant increases we've already seen in the cost of natural gas.

Please fight for us to ensure that monthly gas bills are affordable, just, and reasonable. We can't afford to continue being cash cows for NIPSCO's profits.

Regards,
Thomas Potter

Dear Counselor Fine,

I am a NIPSCO Gas customer, and I ask that you please REJECT NIPSCO's request to raise our natural gas bills yet again.

If this request is approved, it's going to cause our bills to go up by almost 20%, and that's above and beyond the significant increases we've already seen in the cost of natural gas.

Please fight for us to ensure that monthly gas bills are affordable, just, and reasonable. We can't afford to continue being cash cows for NIPSCO's profits.

Regards,
Shannon Jacobs

Subject: Proposed rate hike/NIPSCO
Date: Monday, January 10, 2022 2:41:41 PM

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

To Whom it May Concern:

My husband and I are both against yet another rate hike. One reason is we are on a fixed income. Secondly, any public service, such as NIPSCO, that can give hundreds of thousands, if not millions of dollars in bonus and salary packages does not need more money from the average working class person. We do not need to provide for your stockholders and executives pockets any more than we already do.

**** This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email. ****

I am an 85 year old Hoosier and live alone. Because I have bad circulation, I must keep the temperature in my home higher than normal in order to be comfortable. I have a pension so I do not qualify for any assistance or aid. However, this last bill was quite high and with inflation and related price gouging at the gas pump, etc., I find the rate hike way out of range for those of us on a limited income. Please consider an adjustment so we don't need to scrimp and save to pay our bills because there's more than utilities to pay. Thank you.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

Dear Decision Maker,

A 17% increase is way to much, I could understand 2 or 3 percent. What is worse is the increase in delivery charge. Even at 14.50 a month that is sometimes more than the amount of gas usage I have a month. 24.50 would be more than I use in each of a four month period.

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

Dear Decision Maker,

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.

I urge the IURC to oppose NIPSCO's proposal included in Cause Number 45621, which includes the increase to the customer charge.

Increasing this fee \$10 more a month, before even turning on the furnace or the stove, punishes older Hoosiers even if they use less natural gas.

We just can't afford to have our utility rates raised again and again.

Please protect residential customers and reject any increase to the already too-high customer charge.

Thank you for your consideration.
